

Is b-lop.com safe? TrustSniffer's low-trust assessment: 40/100

b-lop.com

Verdict

40

OUT OF 100

LOW TRUST

b-lop.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Corporate website for B-LOP offering retail and interior design, shopfitting and lighting solutions. Includes project showcases, contact form, and company contact details in Switzerland. No signs of financial solicitations or credential harvesting.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What b-lop.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is a Swiss-presenting corporate website for B-LOP, offering retail and interior design, shopfitting, lighting, hospitality, and related contract services through project showcases, service descriptions, and client-contact functionality.

Scam/Impersonation Risk

Confirmed external reputation contradictions materially elevate the risk associated with sensitive interaction. The domain is blacklisted by external sources, and malicious and suspicious detections are present, despite the website presenting a conventional corporate-services profile. Conversely, the homepage and observed page behavior show no login form, credential-collection flow, wallet connection, or financial solicitation, and no brand impersonation was detected in the supplied page analysis. The appropriate interpretation is therefore a high-risk trust posture driven by external reputation evidence, rather than by a demonstrated deceptive mechanism on the pages reviewed.

EVIDENCE

- External reputation assessment: 2 malicious detections and 1 suspicious detection were recorded among 3 evaluated results; the domain was also identified on an external blacklist.
- Homepage and contact functionality: no login form, hidden sensitive form, password submission, or credential-harvesting behavior was detected.
- Registration record: created 2018-08-07T20:45:40Z and approximately 8.04 years old.

Regulatory Verification Notes

The site presents B-LOP as a corporate design and contract-services business, with identity and contact material directed toward commercial project work. The real-world operator identity remains unverified on the supplied evidence. No license authority or registration number is disclosed in the reviewed material; for a design and fit-out provider this is a transparency and verification point rather than, by itself, evidence of fraud. The available third-party broker context contains no match, but that result does not establish licensing, corporate registration, or regulatory standing.

EVIDENCE

- About and service pages: identify B-LOP as a provider of retail, interior, shopfitting, lighting, hospitality, and implementation services.
- Legal and identity material: no license authority or license number is stated.
- Hosting and transport telemetry: the site is served from AS207143, hosttech-AS - hosttech GmbH, CH; its TLS certificate is issued by YR1 at DV validation level and is valid to 2026-10-08.

What to Verify Next

Before any commercial engagement, independently confirm the legal entity behind B-LOP through the relevant Swiss business registry and obtain a written contract identifying the contracting party, payment recipient, scope of work, liability terms, and dispute process. Contact details on the contact page should be validated through an independently sourced telephone number or business listing rather than relying solely on the website. Project references should also be confirmed directly with the named clients or property owners before committing funds.

EVIDENCE

- Contact page: provides a contact form and company contact details for initiating project discussions.
- Portfolio and references pages: present completed retail, hospitality, and design projects that can be independently validated.
- Contracting documentation: the reviewed site material describes services but does not itself establish the legal counterparty for a proposed engagement.

Summary Verdict

The overall posture is **low trust**, with a sensitive-interaction risk that is not suitable for credentials, account access, or financial activity. The corporate presentation is internally coherent at page level, but it does not overcome the confirmed external reputation contradictions, and operator identity is not independently verified.

Infrastructure Integrity

The site resolves directly to two likely origin addresses in Switzerland and has no detected CDN or WAF layer. Hosting through hosttech GmbH provides identifiable infrastructure, while the absence of an additional protective edge layer offers no meaningful mitigation against the reputation concerns identified above.

Closing Assessment

Restrict activity to passive review until independent entity, contact-channel, project-reference, and contractual checks are complete; login, credential submission, and financial transactions should not be undertaken on the basis of the website alone.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine.

01

Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of b-lop.com.

- The request stayed on b-lop.com. It was not redirected to another domain. CLEAR
- Registration is published under 1API GmbH. CLEAR
- DNS for this domain is served by komplizinnen.at, across 3 name servers. NOTED
- The registration is paid up to 2027-08-07. NOTED
- The earliest public archive of this site is from 2021-11-26. CLEAR
- It is hosted on hosttech-AS, from a server in CH. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about b-lop.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
