

Is backmarket.com legit? TrustSniffer's high-trust assessment: 100/100

backmarket.com

Verdict

100

OUT OF 100

HIGH TRUST

backmarket.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 65%.

What this site appears to be

Back Market is an established online marketplace selling refurbished consumer electronics from third-party sellers, with product categories, discounts, reviews, warranties, returns, trade-ins, protection plans, and editorial content.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1999.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Back Market is an established online marketplace for refurbished consumer electronics, connecting visitors with third-party sellers and presenting product discounts, reviews, warranties, returns, trade-ins, protection plans, financing, and business purchasing services.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent refurbished-electronics marketplace model, with identifiable product categories, seller-based commerce, customer protections, and supporting services. The site does not exhibit reported phishing, impersonation, malicious-content, or blacklist indicators, and its historical presence is consistent with an established operating identity.

EVIDENCE

- The homepage identifies refurbished smartphones, tablets, computers, gaming consoles, trade-ins, warranties, protection plans, and business purchasing.
- Historical records show 609 archive snapshots spanning 1999–2022, covering 24 tracked years.
- External reputation checks recorded zero malicious detections, zero suspicious detections, no blacklist hit, and no reported abuse activity.

Regulatory Verification Notes

Back Market presents as a commercial marketplace rather than a site claiming regulated financial services. The supplied evidence does not establish a specific regulatory license disclosure; this is a transparency point for jurisdiction-specific review, not evidence of deception. Registration records identify Gandi SAS as registrar and JUNG S.A.S as the listed organization, while privacy protection is an administrative detail. The site also has a clean contextual third-party reputation with no broker-data match.

EVIDENCE

- The site does not claim a license or provide a license number in the analyzed business information.
- The domain was registered in 2002 and is recorded as 24.24 years old; the registrar is Gandi SAS and the listed organization is JUNG S.A.S.
- Hosted on AS13335 (Cloudflare); TLS certificate issued by YE1 (DV), valid to 2026-10-15.
- The analyzed third-party broker dataset returned no match.

What to Verify Next

For any jurisdiction-specific transaction or financing arrangement, confirm applicable registration requirements through the relevant official registry. Transaction-level review should also confirm the applicable seller, warranty, return, protection-plan, and payment terms shown during checkout.

EVIDENCE

- The homepage states that products are supplied through third-party sellers.
- The site presents warranties, returns, protection plans, trade-ins, financing, and business purchasing as distinct services.
- The site provides account, orders, help, and customer-support pathways for transaction follow-up.

Summary Verdict

The overall posture is that of a legitimate, established, and trustworthy commercial website with a low-risk content profile and no observed identity or fraud contradictions. Normal interaction with the service is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a meaningful defensive layer, and the observed addresses are CDN edge servers rather than exposed origin infrastructure; this supports resilience and reduces direct origin exposure but is not, by itself, proof of legitimacy.

EVIDENCE

- Observed Cloudflare edge IPs: 104.16.160.28 and 104.17.51.26.
- Infrastructure records identify Cloudflare, Inc. as the hosting provider and CDN/WAF operator.

Closing Assessment

Normal browsing, account login, and standard marketplace use are appropriate, with ordinary transaction and consumer-protection checks applied to individual purchases.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of backmarket.com.

- The request stayed on backmarket.com. It was not redirected to another domain. CLEAR
- Registration is published under Gandi SAS. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2034-05-10. CLEAR
- The earliest public archive of this site is from 1999-11-27. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about backmarket.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
