Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1998.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Bagaggio is an established-looking ecommerce storefront offering luggage, backpacks, bags, wallets, school products, and travel accessories through direct online sales, promotions, gift cards, and store-based pickup or delivery options.

Scam/Impersonation Risk

No phishing, impersonation, brand-conflict, or other identity contradiction was observed. The homepage presents a coherent retail model with product categories, discounts, store availability, customer-support links, and a newsletter form rather than credential-harvesting functionality; analysis also found no login form, hidden sensitive form, wallet activity, or suspicious redirection. One isolated external malicious classification exists, but it is not corroborated by the broader assessed reputation results, which showed no confirmed blacklist, phishing, or malicious-site finding. The site's behavioral review did identify two suspicious inline scripts and unusually broad external traffic, but these were treated as technical anomalies within an otherwise standard ecommerce presentation, not as evidence of impersonation or fraud.

EVIDENCE

- Homepage: product listings cover luggage, backpacks, school items, wallets, and travel accessories, with promotions including 10% off a first purchase and outlet discounts.
- Homepage behavior: one newsletter-signup form was observed; no login form, password-external form, wallet connection, clipboard hijack, or hidden sensitive form was detected.
- Domain registration: registered 1997-10-02 and approximately 28.88 years old.
- Web archive: 583 snapshots spanning 1998-12-06 to 2026-05-16, covering 29 tracked years.

Regulatory Verification Notes

The website presents company information and support channels consistent with a consumer retail business, rather than claiming to provide regulated financial services. No regulatory license or registration number is claimed on the available pages; for this business model, that is a disclosure and merchant-verification point rather than evidence of a scam. The registration record names BAG-ONLINE COMERCIO DE BOLSAS LTDA, but the available evidence does not independently verify that entity as the real-world operator of the website. Transport security and established infrastructure support the assessment that the site is technically maintained, while not proving legal ownership.

EVIDENCE

- Registration record: owner field lists BAG-ONLINE COMERCIO DE BOLSAS LTDA; independent operator identity remains unverified.
- Hosting: served from AS16509, Amazon.com, Inc. (AMAZON-02), US.
- TLS: certificate issued by YR2 with DV validation, valid to 2026-09-24T16:15:31+00:00.
- Homepage: provides company-information content, contact/support links, newsletter signup, and store pickup or delivery availability.

What to Verify Next

Before credential or payment interactions, independently confirm that the merchant identity shown in the site's company information corresponds to the intended seller, review the applicable return and fulfillment terms, and ensure that the payment method provides buyer protection. Contact channels should be validated through an independently sourced route, and any corporate-registration details should be checked against the relevant Brazilian registry.

EVIDENCE

- Homepage: offers store-location lookup, pickup or express-delivery availability, and customer-support navigation.
- Retail model: transactions are based on direct product sales and promotional offers rather than a stated regulated financial service.
- Contact and company-information pages: provide the appropriate basis for independent merchant-identity and returns-policy checks.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website. The overall posture is high trust and low risk for ordinary ecommerce activity, although the real-world operator identity is not independently verified.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with all observed addresses belonging to CDN edge servers and no origin candidate identified in the analysis. This reduces direct origin exposure and is a mitigating technical control, but it is not by itself proof of legitimacy.

Closing Assessment

Ordinary browsing and purchasing may proceed subject to standard independent merchant-identity, returns-policy, and payment-protection checks before credentials or payment details are submitted.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bagaggio.com.br.

- The request stayed on bagaggio.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2033-10-02. [CLEAR](#)
- The earliest public archive of this site is from 1998-12-06. [CLEAR](#)
- It is hosted on AMAZON-02, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bagaggio.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
