

Is bandai.co.jp legit? TrustSniffer's high-trust assessment: 80/100

bandai.co.jp

Verdict

80

OUT OF 100

HIGH TRUST

bandai.co.jp appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Official corporate web page for Bandai / Bandai Spirits providing company information, news, product site links, sustainability and contact details. No signs of credential harvesting or financial investment solicitations in the provided content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1996.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is a corporate website presented for Bandai and BANDAI SPIRITS, providing company information, product and service links, news, sustainability material, recruitment information, and contact resources. Its apparent purpose is to support a major toy, game, collectible, and entertainment business through product sales, licensing, intellectual-property partnerships, and branded retail channels.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate profile rather than a financial solicitation, credential-harvesting page, or investment service; the available content contains no login form, sensitive submission form, wallet activity, or detected brand-impersonation indicators. Its long registration continuity, sustained archival presence, clean threat-reputation results, and consistent corporate subject matter support an apparently legitimate and established website, although the real-world operator identity is not independently verified. The site's historical continuity is particularly relevant because the archived material shows no suspicious repurposing or semantic drift.

EVIDENCE

- The domain was registered on 1995-05-26 and is 31.23 years old, according to the domain registration record.
- The web archive records 2,495 snapshots from 1996-10-29 through 2026-08-09, covering 31 years with a maximum recorded gap of 1 year.
- Threat-reputation checks recorded 0 malicious and 0 suspicious detections; the page analysis recorded no phishing, credential-harvesting, or impersonation indicators.
- The homepage is categorized as a corporate/brand page and describes Bandai and BANDAI SPIRITS company activities, products, sustainability work, careers, and contact resources.

Regulatory Verification Notes

The available pages include company information, company history, legal announcements, sustainability material, and contact details, which is consistent with a conventional corporate operating model. The site does not present itself as a broker, investment platform, or other regulated financial service, so no financial-services license conclusion is required by the business model shown. Nevertheless, the evidence does not independently verify the real-world operator behind the website; the on-page corporate presentation should therefore be

treated as an apparent identity claim rather than conclusive proof. The absence of a third-party broker-data match is a contextual reputational signal only and is not a legal or licensing determination.

EVIDENCE

- The company-information area includes company overview, history, legal announcements, management-related material, and press releases.
- The site's transport certificate is OV-validated, issued by GlobalSign RSA OV SSL CA 2018, and identifies the subject organization as BANDAI CO.,LTD.; validity is recorded through 2026-11-28.
- The site is hosted on AS16509, operated by AMAZON-02 - Amazon.com, Inc., US.
- The page content describes physical products, branded product sites, sustainability, recruitment, and corporate communications rather than financial products or investment returns.

What to Verify Next

Before credential or payment interactions on any linked product or retail destination, independently confirm that the destination is an authorized Bandai or BANDAI SPIRITS channel. For a commercial transaction, confirm the applicable merchant identity, return and refund terms, and payment-protection options through the relevant retail channel. Contact details should be validated through an independently sourced corporate channel rather than relying solely on information reached through the website.

EVIDENCE

- The homepage directs visitors to separate product and service sites, including Bandai product resources and the BANDAI SPIRITS official site.
- The navigation exposes company information, legal announcements, contact and support resources, and recruitment content.
- The available analysis found no sensitive forms or untrusted form destinations on the corporate homepage.

Summary Verdict

The website has a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate corporate presence. The evidence supports normal informational use and a generally positive trust assessment, while the independent connection between the website and a real-world operator remains unverified.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, and the observed address is an edge address rather than an identified origin server. The infrastructure resolves through AS16509 and Amazon.com, Inc.; this is a meaningful exposure-mitigation measure, but it is treated as supporting infrastructure rather than proof of corporate legitimacy.

Closing Assessment

Routine browsing is appropriate; before submitting credentials or making payments through any related commercial destination, ordinary independent checks of merchant identity, transaction terms, and payment protection should be completed.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bandai.co.jp.

- The request stayed on bandai.co.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by d-53.info, across 3 name servers. NOTED
- The earliest public archive of this site is from 1996-10-29. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bandai.co.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
