Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a Japanese-language corporate entertainment portal presented as the official Bandai Namco Amusement Unit site, promoting game centers, amusement machines, themed and official shops, family entertainment facilities, events, campaigns, prizes, and related services rather than offering financial products or high-risk transactional services.

Scam/Impersonation Risk

No contradictions were observed. The site content is consistent with a corporate entertainment operation: it provides facility, shop, event, campaign, news, FAQ, and contact information, while analysis found no login form, sensitive-data form, wallet functionality, or financial interaction. Brand-impersonation indicators were absent, and external reputation checks were clean, supporting an apparently legitimate and established-site assessment rather than a scam or impersonation finding.

EVIDENCE

- Homepage: Presents the Bandai Namco Amusement Unit and lists game centers, theme parks, specialty shops, amusement machines, prizes, and events.
- Homepage behavior: No hidden forms, password forms, wallet activity, clipboard manipulation, cloaking, or sensitive-data submission was detected.
- Domain registration: Registered 2018-02-09 (~8.51 years old).
- External reputation: 0 malicious detections, 0 suspicious detections, and no blacklist or phishing hit were recorded; traffic rank 42127, within the top 1 million.

Regulatory Verification Notes

The available material is consistent with an established corporate entertainment website, but the real-world operator identity is not independently verified by the supplied evidence. The site provides corporate, privacy, FAQ, and contact navigation, while no financial-services license or registration number is presented; for this non-financial entertainment model, that is a disclosure point for ordinary due diligence rather than evidence of deception. A separate broker-reputation dataset produced no match, which is contextual support only and not a legal or licensing determination. The transport certificate identifies BANDAI NAMCO Amusement Inc. as its subject organization, providing a concrete infrastructure-aligned identity signal without independently proving site ownership.

EVIDENCE

- Hosting telemetry: Served from AS16509, AMAZON-02 - Amazon.com, Inc., US.
- TLS telemetry: GeoTrust TLS RSA CA G1 certificate, OV validation, subject organization BANDAI NAMCO Amusement Inc., valid to 2026-10-09T23:59:59+00:00.
- Legal and information navigation: The homepage exposes corporate, privacy, FAQ, and contact links.
- Licensing disclosure: The supplied site material contains no financial-services license or registration number.

What to Verify Next

Before any credential or payment interaction, an independent corporate channel should be used to confirm that the website is the intended Bandai Namco Amusement destination. For any paid admission, merchandise, shop, or event transaction, the applicable merchant identity, cancellation or return terms, and payment-protection arrangements should be checked through the relevant official information and payment pages.

EVIDENCE

- FAQ and contact navigation: Provides dedicated routes for product, facility, media, and general inquiries that can be compared with independently sourced corporate contact information.
- Site purpose: The published content supports an admissions, merchandise, specialty-shop, and event-campaign business model rather than an investment or financial-services model.

Summary Verdict

Overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate website. No scam, phishing, impersonation, or other contradictory risk signal was observed, although the operator's real-world identity remains independently unverified.

Infrastructure Integrity

The site uses AWS-managed CDN/WAF protection, with observed traffic served through AS16509 edge infrastructure; the origin server was not identified in this analysis. This architecture is a mitigating control that reduces direct exposure of the underlying service, but it is not by itself proof of legitimacy.

EVIDENCE

- Infrastructure telemetry: AWS CDN/WAF detected; 2 edge IPs observed, with 0 likely origin candidates.
- Network telemetry: Edge IPs 54.238.160.27 and 54.64.151.210, both associated with AS16509.
- Hosting provider: AMAZON-02 - Amazon.com, Inc., US.

Closing Assessment

Normal informational use is proportionate to the observed posture; independent merchant-identity, transaction-term, and payment-protection checks should precede credential or payment interactions.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bandainamco-am.co.jp.

- The request stayed on bandainamco-am.co.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by co.uk, across 4 name servers. NOTED
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bandainamco-am.co.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
