Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2000.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Bank Yahav presents a Hebrew-language retail banking website offering digital banking, accounts, loans, investments, deposits, credit cards, foreign-currency services, branch access, customer support, security guidance, and account opening; its apparent purpose is to provide conventional banking and related financial services.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious reputation findings were observed. The homepage provides substantial operational, security, privacy, accessibility, contact, and policy content, while behavioral inspection found no hidden forms, external sensitive-form destinations, wallet activity, cloaking, or suspicious scripts. The domain's long operational history and consistent banking presentation further support continuity rather than impersonation.

- The homepage identifies Bank Yahav and presents banking, account, lending, investment, card, foreign-currency, branch, and customer-support services.
- The site's archive records 549 snapshots spanning 2000–2026, covering 27 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The website presents itself as an established retail bank and includes financial-information, privacy, accessibility, security, contact, and corporate-information areas. No license number or regulator-specific registration disclosure was identified in the supplied page content; this is a transparency item for formal regulatory validation, not evidence of deception. A third-party broker-context lookup produced no match.

- The homepage contains operational notices, privacy information, security guidance, accessibility content, and links for “About the Bank,” contact, forms, and financial information.
- The domain is registered through Domain The Net Technologies Ltd and expires on 2028-11-15.
- Hosting is served from AS19551 (INCAPSULA - Incapsula Inc, US).
- The TLS certificate is EV-validated, issued by DigiCert EV RSA CA G2 for BANK YAHAV FOR GOVERNMENT EMPLOYEES LTD., valid to 2026-09-16.

What to Verify Next

For formal onboarding or regulated financial use, confirm the bank’s authorization and current corporate details through the relevant official financial-services registry, and independently confirm official contact and branch channels before high-value transfers or contractual commitments.

- The site provides dedicated “About the Bank,” contact, branch-locator, and financial-information areas for cross-checking.
- The homepage displays current operational notices, including interest-rate and trading-calendar updates.
- The site’s transport encryption is currently represented by an EV certificate with a stated validity date of 2026-09-16.

Summary Verdict

The website has a high-trust posture consistent with a legitimate, established financial institution. Its identity, content, historical continuity, technical controls, and clean reputation converge without observed contradiction, supporting normal interaction, including account login and standard banking use.

Infrastructure Integrity

The site is protected by Incapsula CDN/WAF infrastructure, with observed edge addresses 149.126.73.96 and 199.83.130.96 on AS19551; no origin candidate was observed. This reduces direct exposure of the underlying server and is a mitigating infrastructure control, not independent proof of legitimacy.

Closing Assessment

Normal account access and standard banking activity are appropriate, with formal registry confirmation reserved for institutional onboarding, compliance review, or materially significant transactions.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bank-yahav.co.il.

- The request stayed on bank-yahav.co.il. It was not redirected to another domain. CLEAR
- Registration is published under Domain The Net Technologies Ltd. CLEAR
- DNS for this domain is served by net.il, across 3 name servers. NOTED

- The registration is paid up to 2028-11-15. CLEAR
- The earliest public archive of this site is from 2000-06-18. CLEAR
- It is hosted on INCAPSULA, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bank-yahav.co.il at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
