

Is bankmillennium.pl legit? TrustSniffer's high-trust assessment: 75/100

bankmillennium.pl

Verdict

75

OUT OF 100

HIGH TRUST

bankmillennium.pl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 75%.

What this site appears to be

Official-looking retail bank page for Bank Millennium in Polish. Contains product marketing, login to online banking, security warnings, contact numbers, and legal/cookie notices. No evidence of credential harvesting or deceptive finance offers on the captured page.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This Polish-language website presents Bank Millennium's retail banking services, including personal accounts, loans and mortgages, cards, savings products, online banking, customer support, and security guidance; its apparent business model is established consumer banking supported by interest, fees, and financial-product sales.

Scam/Impersonation Risk

No contradictions were observed. The captured homepage is consistent with a retail-bank operating model and includes a Millenet login, security warnings, customer-support information, and legal notices without evidence of credential harvesting, deceptive financial offers, brand impersonation, hidden forms, or suspicious browser behavior. External reputation checks were clean, and the site has a sustained public presence consistent with an established website. The apparent legitimacy is strong, but the real-world operator identity remains likely rather than independently verified.

EVIDENCE

- The homepage presents Bank Millennium personal accounts, loans, mortgages, cards, savings, Millenet online banking, security guidance, and contact information.
- The domain was registered in 2002 and is 23.75 years old.
- Web archives record 2,163 snapshots spanning 2003–2026, with 24 years tracked.
- External checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist result; the site's traffic rank was 41,408.

Regulatory Verification Notes

The site provides a coherent bank identity, product information, customer-support content, and legal and cookie notices. However, the captured material does not present a license or registration number that independently establishes the applicable banking authorization; this is a regulatory-transparency item for confirmation, not evidence of a scam. Registration through Domena.pl sp. z o.o., a long-established domain history, a Bank Millennium-operated hosting environment, and an organization-validated transport certificate materially support the assessment that the website is apparently legitimate. A separate broker-reputation dataset produced no match, but that signal is contextual rather than a licensing determination.

EVIDENCE

- Domain registration lists Domena.pl sp. z o.o. as registrar, with expiration on 2027-11-13.
- The site resolves to AS25055, BBG-PL-AS - Bank Millennium SA, PL.
- The TLS certificate is issued by GeoTrust EV RSA CA G2, uses EV validation, identifies Bank Millennium SA, and is valid through 2026-11-20.
- The homepage and legal/cookie notices contain business and compliance-related content but no displayed license or registration number.

What to Verify Next

Before credential or payment interactions, the operating entity and applicable banking authorization should be confirmed through the relevant official registry and through an independently obtained Bank Millennium channel, rather than relying solely on links or contact details displayed on the page. Account holders should use a known bookmark or official bank application, confirm that the browser remains on the expected domain during login, and review the bank's standard payment-protection and dispute procedures.

EVIDENCE

- The homepage contains a sensitive Millenet login function, making independent domain confirmation relevant before authentication.
- The site's legal and cookie notices provide the appropriate page set for checking the named operating entity and applicable disclosures.
- The site links to established social platforms and official mobile-application ecosystems, which can be compared with independently sourced Bank Millennium channels.

Summary Verdict

The website has a **high-trust, low-risk posture** and the available evidence is consistent with an established, apparently legitimate retail-bank website. No scam, phishing, impersonation, or identity-contradiction signals were observed, while operator identity should remain described as likely rather than proven.

Infrastructure Integrity

The site is hosted on infrastructure identified as BBG-PL-AS - Bank Millennium SA, PL, with no detected CDN or WAF layer and a single directly resolved origin address. The organization-aligned hosting and EV certificate are mitigating integrity signals, although protective infrastructure alone is not proof of legitimacy.

Closing Assessment

Ordinary independent identity and payment-protection checks should precede credential or payment interactions; subject to those routine controls, the site is suitable for normal banking use.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bankmillennium.pl.

- The request stayed on bankmillennium.pl. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Domena.pl sp. z o.o.. [CLEAR](#)
- DNS for this domain is served by m24.pl, across 4 name servers. [NOTED](#)
- The registration is paid up to 2027-11-13. [CLEAR](#)
- The earliest public archive of this site is from 2003-01-23. [CLEAR](#)
- It is hosted on BBG-PL-AS, from a server in PL. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bankmillennium.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
