Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 1996.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Bankwest is an established Australian banking website presenting transaction and savings accounts, credit cards, home loans, term deposits, mobile banking, and customer support services. Its apparent business model is conventional retail banking, generating revenue through lending, interest margins, and service fees.

Scam/Impersonation Risk

No contradictions were observed across the homepage, support content, identity signals, or external reputation checks. The site presents a coherent Bankwest banking proposition, with no detected phishing, impersonation, malicious-content, or blacklist indicators. The available evidence supports normal interaction with the website.

- The homepage identifies Bankwest and presents banking products, login access, fraud assistance, and customer support.
- No phishing forms, hidden forms, wallet-drainer behavior, cloaking, or brand-impersonation indicators were detected during page and behavior assessment.
- The domain was registered in 1996 (29.75 years old), with 1,801 archive snapshots spanning 1996–2026 (31 years tracked).

Regulatory Verification Notes

The legal and support content provides a mature banking presentation and identifies Commonwealth Bank of Australia through the site's certificate and registration data. Licensing or registration details were not clearly established in the supplied page evidence, so this remains a transparency item for formal regulatory onboarding rather than an indication of deception. No broker-reputation match was identified.

- The registered owner is Commonwealth Bank of Australia; the registrar is Domain Directors Pty Ltd trading as Instra.
- The site's TLS certificate is issued by DigiCert EV RSA CA G2, uses EV validation, and is valid to 2026-09-13.
- The homepage provides product, support, complaints, hardship-assistance, and fraud-reporting content.
- The site is hosted on AS13335 (Cloudflare); the hosting provider is CLOUDFLARENET - Cloudflare, Inc., US.

What to Verify Next

For regulated-enterprise onboarding, confirm the current legal and banking authorizations through the relevant official Australian registry and retain the applicable product terms and disclosures. Confirm official support and contact channels through an independent corporate source before establishing high-value institutional workflows.

- The homepage links to customer complaints, fraud reporting, account management, and financial-hardship resources.

- The supplied page evidence does not clearly establish a license number or licensing authority.
- The site identifies product categories and support functions sufficiently to support an independent comparison with official records.

Summary Verdict

Bankwest is a legitimate, established, high-trust banking website with a coherent identity and no observed contradiction signals. Normal interaction, including account login and standard account actions, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed traffic terminating on the Cloudflare edge rather than exposing an origin candidate. This provides a meaningful protective control against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Standard banking interaction is appropriate, with formal regulatory confirmation retained as part of any institutional onboarding or high-value engagement.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bankwest.com.au.

- The request stayed on bankwest.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Domain Directors Pty Ltd trading as Instra. CLEAR
- DNS for this domain is served by awsdns-30.org, across 4 name servers. NOTED
- The earliest public archive of this site is from 1996-10-29. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bankwest.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
