

Is barclaysco.com safe? TrustSniffer's moderate-trust assessment: 60/100

barclaysco.com

Verdict

60

OUT OF 100

MODERATE TRUST

barclaysco.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Small marketing/landing page for an AI website builder branded 'Barclays Co' offering free credits and a 'Start for free' CTA; contains cookie notice and minimal descriptive content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://barclaysco.com/>

What barclaysco.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Governance Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2006.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

The website is a small promotional landing page branded “Barclays Co” that presents an AI website-builder service, promising 50 free credits and inviting visitors to try “Airo AI Builder” or “Start for free”; its apparent business model is to convert visitors into users or paying SaaS customers.

Scam/Impersonation Risk

No blacklist, phishing, malware, or confirmed impersonation contradictions were observed. The “Barclays Co” branding does not, by itself, establish an affiliation with any particular real-world financial institution, but the page-level analysis found no suspected brand impersonation. A reputational signal exists against an Amazon-hosted shared IP: eight abuse reports were attributed to shared infrastructure rather than specifically to this website, so the signal is relevant for monitoring but does not establish site-level maliciousness. The site also presented no login form, hidden form, wallet interaction, or sensitive submission mechanism during observed interaction.

EVIDENCE

- The homepage presents “Barclays Co,” “Airo AI Builder,” a 50-free-credit offer, and “Start for free,” with no detected phishing or impersonation indicator.
- Archive provenance records the domain history from 2006 through 2025, with an archive-reconciled domain age of 21.218343600273784 years.
- The hosting IP 13.248.243.5 has 8 abuse reports with a confidence score of 19; the reports are attributed to shared Amazon infrastructure.
- Observed interaction recorded 15 external XHR requests and 2 external POST requests, with no hidden forms, password submissions, wallet-provider detection, or clipboard-writing activity.

Regulatory Verification Notes

The available evidence supports a cautious, moderate assessment rather than a verified institutional identity. The homepage is a minimal marketing page containing repeated branding, a generic “Your Satisfaction, Our Mission” statement, a “Contact Us” label, a copyright notice, and a cookie notice, but it does not clearly identify a legal operating entity, licensing basis, or registration number. For an AI website-builder SaaS offering, the absence of a claimed financial licence is not itself evidence of wrongdoing; it is a transparency and counterparty-verification gap. The domain is registered through GoDaddy.com, LLC, and its transport encryption is provided through a valid Domain Validation certificate issued by GoDaddy TLS Intermediate CA DV - R1v1.

EVIDENCE

- The homepage contains approximately 749 characters of visible text and provides no clear legal-entity, licensing, or registration disclosure.
- The domain registrar is GoDaddy.com, LLC.
- The TLS certificate is Domain Validation, issued by GoDaddy TLS Intermediate CA DV - R1v1, and valid until 2027-02-28T12:35:42+00:00.
- The page has no structured data, canonical declaration, or meta description, limiting machine-readable business identification.

What to Verify Next

Before account creation, payment, or any sensitive submission, independently confirm the operating entity behind the “Barclays Co” branding and obtain applicable terms, privacy, refund, and data-processing information. Confirm that the official support and contact channels resolve through independently established routes, and review the destinations of external requests before authorising browser or account permissions. Any proposed commercial relationship should also be checked against the relevant company or consumer-protection registry for the jurisdiction involved.

EVIDENCE

- The homepage provides a “Contact Us” label but no established social-domain presence or external link graph.
- Two observed interaction runs completed successfully, while six console errors were recorded.
- The observed page contains no sensitive form, login form, or external password-submission destination.

Summary Verdict

The website presents a **moderate-trust posture**: no confirmed scam or impersonation contradiction was observed, but the available evidence does not independently verify the real-world operator. The assessment is therefore consistent with an apparently ordinary SaaS marketing site whose credibility is sufficient for limited evaluation, but not for unqualified reliance in consequential transactions.

Infrastructure Integrity

The site is served through CDN/WAF-protected infrastructure associated with Amazon Technologies Inc. All observed addresses were CDN edge addresses, with no origin candidate identified; this reduces direct origin exposure but is only a mitigating technical control and does not establish business legitimacy.

EVIDENCE

- Served from AS16509, Amazon Technologies Inc., United States.
- Observed edge IPs are 13.248.243.5 and 76.223.105.230.
- The infrastructure analysis identified 2 CDN edge IPs and 0 likely origin IPs.

Closing Assessment

Ordinary browsing and limited, low-consequence evaluation may proceed, while high-value payments, sensitive data submission, or material contractual commitments should await independent confirmation of the operator and applicable consumer protections.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Dynamic Interaction Caution

- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC

Signals weighed against the site

- AbuseIPDB: 8 reports on hosting IP 13.248.243.5 (Amazon Technologies Inc., Content Delivery Network), 19% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of barclaysco.com.

- The request stayed on barclaysco.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-15. NOTED
- The earliest public archive of this site is from 2006-02-21. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about barclaysco.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
