

Is baughanwebdesign.com legit? TrustSniffer's high-trust assessment: 100/100

baughanwebdesign.com

Verdict

100

OUT OF 100

HIGH TRUST

baughanwebdesign.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

A personal/small-agency web design portfolio for 'Baughan WEBdesign' (Autumnskye, LLC) describing services (design, photography, writing), portfolio items, and contact email loretta@baughanwebdesign.com. No payment or login flows are present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Baughan WEBdesign is a personal or small-agency creative-services website presenting custom web design, branding, photography, writing, and selected portfolio work for prospective clients, with an apparent business model based on project-based professional services.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent creative-services model, with descriptive service copy, portfolio examples, and no payment, account-login, credential-collection, cryptocurrency, or investment solicitation features. Available findings identify no phishing, impersonation, or conflicting legal-identity indicators, and observed browser behavior showed no hidden forms, wallet activity, suspicious scripts, or external posting activity.

EVIDENCE

- The homepage identifies “Baughan WEBdesign” and describes web design, branding, photography, writing, and portfolio services.
- The site contains no login or sensitive-input forms and no payment flow was observed.
- The domain was registered on 2020-05-10 and is approximately 6.28 years old.

Regulatory Verification Notes

The website describes ordinary creative and web-design services rather than a regulated financial product or investment offering. It references Baughan WEBdesign and Autumnskye, LLC, but the available evidence does not independently verify the real-world operator behind those names. The registration record is privacy-protected through Registration Private and Domains By Proxy, an administrative arrangement rather than an identity contradiction. No specific professional license or registration number is presented in the supplied site content; for this business model, that is a transparency item to clarify rather than evidence of deceptive conduct.

EVIDENCE

- The homepage presents client-facing design, photography, writing, and branding services without a regulated financial proposition.
- The domain is registered through GoDaddy.com, LLC, with the public registrant shown as Registration Private and the organization as Domains By Proxy, LLC.
- The site is served over a valid DV TLS certificate issued by YR1, valid to 2026-09-21 08:13:28 UTC.

What to Verify Next

Before a commercial engagement, independently confirm the relationship between Baughan WEBdesign and Autumnskye, LLC, obtain a written statement of scope and deliverables, and confirm cancellation, refund, and payment-protection terms. Contact details should also be corroborated through an independent business or offline channel before credentials or payment information are exchanged.

EVIDENCE

- The homepage provides a defined service offering and portfolio basis for matching proposed work to the engagement.
- The site’s contact route can be compared with independently sourced business information before contractual or payment activity.
- The absence of an identified regulated financial activity makes ordinary merchant-identity and contract checks the relevant next step.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate website. The classification supports normal browsing and ordinary business consideration, while the real-world operator identity remains independently unverified.

Infrastructure Integrity

The site uses direct hosting from VIDEOTRON - Videotron Ltee in Canada, with no CDN edge or WAF vendor identified and one resolved hosting address. This is a straightforward hosting arrangement; it provides no special edge-layer mediation, but it is not itself evidence of malicious activity.

EVIDENCE

- Hosted on AS5769 (VIDEOTRON - Videotron Ltee, CA), registered through ARIN.
- Infrastructure facts record 1 unique IP, 0 CDN edge IPs, and 1 likely origin IP.

Closing Assessment

Routine engagement is reasonable, subject to ordinary independent checks of the business identity, contractual terms, and payment protections before credentials or payment information are exchanged.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of baughanwebdesign.com.

- The request stayed on baughanwebdesign.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by crosswinds.net, across 4 name servers. NOTED
- The registration is paid up to 2027-05-10. NOTED
- The earliest public archive of this site is from 2020-08-15. CLEAR
- It is hosted on VIDEOTRON, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about baughanwebdesign.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
