

Is bazile.lt safe? TrustSniffer's low-trust assessment: 40/100

bazile.lt

Verdict

40

OUT OF 100

LOW TRUST

bazile.lt is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Lithuanian-language ecommerce storefront (bazile.lt) focused on women's fashion. Contains product listings, shopping cart, wishlist and a login form. No investment, crypto, or suspicious payment requests evident in captured content.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What bazile.lt served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

bazile.lt is a Lithuanian-language online fashion storefront presenting women's clothing and accessories through product listings, shopping-cart, wishlist, account-login, and checkout functions. Its apparent business model is conventional online retail based on direct product sales.

Scam/Impersonation Risk

The site's captured content is consistent with a small clothing retailer and contains no investment, cryptocurrency, or suspicious payment solicitation. However, this benign presentation is outweighed by confirmed external reputation contradictions: the domain is recorded as blacklisted, with multiple malicious and suspicious detections. No brand impersonation or conflicting legal identity was identified in the supplied page analysis, but the external detections create a material risk for login, credential, and payment activity. The identity connection is therefore only likely rather than independently verified.

EVIDENCE

- The homepage presents women's fashion products, retail navigation, cart, wishlist, and checkout functionality.
- External reputation evidence records 2 malicious detections and 2 suspicious detections, with blacklist status confirmed by 2 sources.
- Domain registration evidence records creation on 2023-01-29, with a WHOIS age of 3.56 years.
- Historical records show 158 archive snapshots spanning 2021–2025, across 5 years tracked.

Regulatory Verification Notes

The site presents itself as an ecommerce business rather than a regulated financial service, and no investment or other regulated offering was observed. Nevertheless, the supplied material does not show a claimed license, registration number, or clearly substantiated corporate disclosure; this is a verification gap rather than proof of fraud. The available technical indicators confirm ordinary transport security, but domain-validated encryption establishes encrypted communication, not the legal identity of the merchant.

EVIDENCE

- The site's navigation includes About and Contact pages, while the captured material contains no license claim or registration number.
- The website is hosted on AS47583 (AS-HOSTINGER – Hostinger International Limited, CY).
- The site's TLS certificate was issued by YE1 at DV validation level and is valid to 2026-09-21.

What to Verify Next

Before any account creation, credential submission, or purchase, independently confirm the merchant's legal name, address, returns process, and payment recipient using the site's own legal and contact pages and an offline or independently sourced channel. Confirm that the payment method provides effective buyer protection and that checkout details match the verified merchant identity. Any relevant Lithuanian consumer or business registration should be checked directly with the appropriate official registry.

EVIDENCE

- The account and checkout surfaces create a need to validate merchant identity before sensitive interaction.
- The About and Contact navigation provides the site locations where legal and contact disclosures should be checked.
- The retail transaction should be completed only through a payment method with documented dispute and buyer-protection mechanisms.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site's retail presentation does not resolve the confirmed external reputation contradictions, and the available evidence is insufficient to support normal credential or payment engagement.

Infrastructure Integrity

The site resolves directly to Hostinger infrastructure in Ukraine, with likely origin addresses identified and no detected CDN or WAF edge layer. This provides limited infrastructure-based mitigation and should not be treated as evidence of legitimacy.

Closing Assessment

Non-sensitive browsing may be maintained for research purposes, but account, credential, and financial activity should remain suspended until the merchant identity and transaction protections have been independently validated.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01

Governance Risk
 - The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02

Sensitive Interaction Risk
 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bazile.it.

- The request stayed on bazile.it. It was not redirected to another domain.

CLEAR
- The registration is paid up to 2027-01-30.

NOTED
- The earliest public archive of this site is from 2021-11-26.

CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bazile.lt at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
