

Is bd57.xyz a scam? TrustSniffer's high-risk assessment: 0/100

bd57.xyz

Verdict

0

OUT OF 100

CRITICAL RISK

bd57.xyz shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Bangla-language mobile-first gambling site (bd57) offering slots, live casino, and sportsbook with local wallet deposits (bKash, Nagad, Rocket). Promotes APK install and OTP-based login; provides deposit instructions and 24/7 support email. Structural model requires custodial deposits for wagering.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What bd57.xyz served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a Bangla-language, mobile-first online gambling platform presenting casino games, sports betting, account registration, mobile-wallet funding, and Android-app access for users in Bangladesh. Its apparent business model requires users to deposit funds into platform-controlled wallets before wagering.

Scam/Impersonation Risk

The site presents a **critical sensitive-interaction risk**. External security intelligence recorded malicious detections and a confirmed blacklist status, creating a material contradiction to treating the site as a trustworthy destination for login, credential submission, or financial activity. The homepage promotes Pragmatic Play, PG Soft, and Evolution casino content, cricket betting across IPL and BPL markets, live in-play betting, and deposits through bKash, Nagad, and Rocket; the combination of deposit-before-service, custodial control of funds, opaque value flow, and high-stakes evidence gaps materially increases the potential impact of engagement. No specific brand impersonation was identified, so the evidence supports a severe site-level warning rather than attribution to a particular impersonated entity.

EVIDENCE

- The homepage presents casino, live-table, sportsbook, and cricket-betting services funded through platform wallets.
- The login and registration flows include sensitive forms, including OTP-based account access.
- External reputation checks recorded 14 malicious detections and 1 suspicious detection from 20 evaluated results; the domain was also confirmed on external blacklists.
- The domain registration record states 2026-07-18 and an age of approximately 0.09 years.

Regulatory Verification Notes

The website's regulatory position is not established by the supplied evidence. The available page content does not identify a licensing authority or license number, while the stated business model involves custodial deposits and wagering; this is a material disclosure gap for a gambling service handling customer funds, but the absence of a disclosed license is a verification issue rather than standalone proof of fraud. Real-world operator identity remains unverified. The site's valid transport encryption and mainstream hosting are technical protections only and do not resolve the regulatory or identity uncertainty. No matching broker-reputation record was identified in the supplied third-party context.

EVIDENCE

- The homepage and account pages describe wagering and wallet funding but do not provide a licensing authority or license number.
- The archive record contains 0 snapshots, with first seen and last seen recorded as 2023-01-26 and 1 year tracked.
- The site is served from AS13335, Cloudflare, Inc., United States.
- The site uses a DV TLS certificate issued by WE1, valid to 2026-10-17.

What to Verify Next

Before any sensitive interaction, an institution should independently confirm the operator's legal name, beneficial ownership, gambling authorization, and permitted geographic scope with the relevant Bangladeshi authority or other applicable registry. The payment provider should confirm whether the named mobile-wallet channels are officially authorized to process deposits for this operator rather than merely displayed on the website. Account-recovery and support channels should be validated through an independent, offline source, and any Android application should be assessed through an approved mobile-security process before installation. No funds or credentials should be committed unless those checks produce verifiable, consistent results.

EVIDENCE

- The registration and account pages are the relevant locations for confirming the operator's legal identity and account-control practices.
- The homepage's payment instructions are the relevant location for reconciling displayed payment methods with independently confirmed authorization.
- The app page is the relevant location for reviewing the proposed Android installation path.
- The questions or support pages are the relevant locations for testing whether ownership, dispute handling, and withdrawal terms are documented consistently.

Summary Verdict

The overall posture is **critical risk**, with the available evidence inconsistent with safe trust in the website for sensitive interactions. Identity, regulatory standing, and the handling of deposited funds cannot be treated as established, while the external malicious and blacklist signals are decisive.

Infrastructure Integrity

Cloudflare's CDN/WAF provides a mitigating layer against direct exposure of the hosting environment, and observed service addresses include Cloudflare edge infrastructure under AS13335. This protection supports transport and availability resilience but is not evidence that the underlying operator or service is legitimate.

Closing Assessment

The appropriate enterprise posture is to restrict activity to passive observation and prevent login, credential submission, application installation, deposits, withdrawals, or other financial interaction until independent identity, authorization, and payment-channel checks are satisfactorily completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bd57.xyz.

- The request stayed on bd57.xyz. It was not redirected to another domain. CLEAR
- Registration is published under DYNADOT LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-18. NOTED
- The earliest public archive of this site is from 2023-01-26. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bd57.xyz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
