Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a Moroccan direct-to-consumer beauty and personal-care ecommerce storefront offering cosmetics, skin and hair care, hygiene products, mother-and-baby items, supplements, accessories, and promotional bundles at prices denominated in Moroccan dirhams, with shopping-cart and account functionality and same-day delivery messaging for selected cities.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or other contradictory fraud signals were observed. The domain has an established multi-year registration, the storefront presents a coherent retail business model, and external threat-reputation checks were clean. Observed browser behavior also showed no credential diversion, wallet activity, clipboard manipulation, cloaking, hidden forms, or suspicious scripts.

- Domain-registration records identify Larbi Boujemaa as the owner and GENIOUS COMMUNICATIONS as the registrar; registered 2021-05-22 (~5.2 years old), with expiration on 2030-05-22.
- The homepage was classified as a beauty and personal-care ecommerce storefront, with no detected brand-impersonation indicators or page-level red flags.
- External reputation telemetry recorded 0 malicious and 0 suspicious detections, with no malicious safe-browsing finding.
- Two successful behavioral runs detected 0 external requests, 0 external posts, 0 hidden forms, 0 suspicious inline scripts, and no cloaking.

Regulatory Verification Notes

The supplied homepage supports an ordinary retail-sales model rather than a regulated financial or investment service. The available page evidence does not establish a claimed license, license number, or supervisory authority; in this commercial context, that is a disclosure-status limitation rather than evidence of deception. No matching third-party broker profile was identified, which is consistent with the site's non-broker business model but is not a legal or regulatory determination.

- The homepage describes conventional product sales through listed prices, discounts, bundles, and add-to-cart controls, without cryptocurrency, investment, brokerage, or financial-return claims.
- The homepage's commercial content does not present a license claim, named licensing authority, or license number.

- The third-party broker-intelligence dataset returned no matched broker entity.
- The site's transport encryption uses a YE1-issued domain-validated TLS certificate, valid to 2026-11-01.

What to Verify Next

For higher-value orders, prospective customers can independently confirm the merchant's applicable trading identity, refund terms, delivery conditions, and authorized-product sourcing. Payment and fulfillment records should be retained through the normal purchase lifecycle, and official contact channels can be confirmed independently if post-sale support is material.

- The homepage advertises free same-day delivery for qualifying orders placed before midday in Tangier, Tétouan, Rabat, Salé, Témara, Fez, Meknes, and Ifrane.
- The captured storefront contains approximately 50,205 characters of substantive catalog text, supporting detailed comparison of product descriptions and transaction terms.
- The page presents both customer-account access and a shopping cart, making order, payment, and fulfillment documentation relevant to routine consumer due diligence.

Summary Verdict

The site presents as a legitimate, established, and trustworthy ecommerce business. Its coherent commercial identity, stable provenance, clean threat reputation, substantive storefront, and benign observed behavior converge strongly in support of normal interaction, including account login and standard purchases.

Infrastructure Integrity

The website is served through Cloudflare's trusted CDN/WAF, with all observed addressing attributable to an edge server. This configuration reduces direct exposure of the underlying server and provides a conventional protective layer, although infrastructure protection is a mitigating security control rather than independent proof of commercial legitimacy.

- The hosting infrastructure resolved to 23.227.38.65 on AS13335 (CLOUDFLARENET — Cloudflare, Inc., US), geolocated to Canada.
- One IP address was observed, classified as a Cloudflare edge address; no origin-server candidate was exposed.

Closing Assessment

Normal browsing, account use, and standard ecommerce transactions are appropriate, subject to customary consumer checks for order terms and merchant fulfillment.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about beautymarket.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
