

Is benevo.co.in legit? TrustSniffer's high-trust assessment: 100/100

benevo.co.in

Verdict

100

OUT OF 100

HIGH TRUST

benevo.co.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Benevo Management Private Limited is an India-based corporate training and HR consulting firm specialising in PoSH training, ICC external member services, PoCSO awareness, leadership and behavioural training. The site lists services, contact details, address, credentials and articles; it appears to be a legitimate service brochure site.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Benevo Management Private Limited is an India-focused corporate training and HR consulting website presenting PoSH compliance training, ICC external member services, PoCSO awareness, leadership and behavioural training, and workplace-compliance solutions for organizations, with engagement arranged through direct business contact and service bookings.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent corporate-training business model, identifies Benevo Management Private Limited, provides service descriptions and contact details, and does not exhibit phishing, impersonation, investment, cryptocurrency, or sensitive-login mechanics. The stated SHE-Box association is expressly qualified on the site as an empanelment and not a government certification or endorsement, which reduces the risk of an overstated official-affiliation claim. Available technical and external reputation signals are consistent with an established, apparently legitimate service website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies Benevo Management Private Limited and describes PoSH training, ICC External Member services, PoCSO awareness, HR consulting, leadership development, and organizational learning.
- The homepage contains no login form, hidden sensitive form, wallet-connection flow, or observed phishing indicator.
- Domain registration records show creation on 2017-05-10 and an age of 9.29 years; the registrar is GoDaddy.com, LLC.
- Archive provenance records coverage from 2020-03-26 through 2025-02-28, representing 6 years tracked with sparse historical coverage and no detected suspicious repurposing.

Regulatory Verification Notes

The site operates as a professional services provider rather than presenting itself as a financial or regulated investment platform. Its pages describe paid corporate training, PoSH compliance, external committee services, and HR consulting, but do not provide a license number or regulatory registration identifier; this is a verification and disclosure matter, not evidence of scam activity. The homepage appropriately states that SHe-Box empanelment is not a government certification or endorsement. The available reputation context contains no matched broker warning, and the site's substantive content, stable operation, domain registration, and transport security support an established-site assessment.

EVIDENCE

- The homepage presents the business model as fee-based corporate training, compliance consulting, and external committee services.
- The homepage states "SHe-Box Empanelled PoSH Professional" while also stating that the listing is not a government certification or endorsement.
- The site is served from AS47583, identified as AS-HOSTINGER / Hostinger International Limited, CY.
- The site's TLS certificate is issued by YE2 with DV validation and is valid to 2026-09-22T19:58:58+00:00.

What to Verify Next

Before a formal corporate engagement, an organization should independently confirm the legal contracting entity, the stated professional credentials, and whether any particular PoSH or consulting service requires registration or authorization under the applicable Indian framework. Procurement should also obtain a written scope of work, named deliverables, invoicing details, cancellation and refund terms where applicable, and payment protections. Contact details and credentials should be cross-checked through an independent business or professional source rather than relying solely on the website.

EVIDENCE

- The About and Professional Credentials pages provide the stated entity, experience, and empanelment claims for independent confirmation.
- The Services and Contact pages define the proposed service relationship and should support procurement review of scope, counterparties, and billing.
- The site's business model indicates direct-contact bookings, making written engagement terms and payment controls appropriate verification points.

Summary Verdict

The available evidence supports a high-trust, low-risk posture and is consistent with an established, apparently legitimate corporate-services website. The assessment does not independently prove the identity of the real-world operator, so the legitimacy conclusion remains evidence-consistent rather than definitive.

Infrastructure Integrity

The site has no detected CDN or edge-IP layer and resolves to five likely origin addresses. This direct hosting posture offers less intermediary shielding than a CDN, but it is an infrastructure characteristic rather than evidence of malicious activity; the observed hosting environment remains technically resolved and operational.

Closing Assessment

Normal business evaluation may proceed, subject to ordinary independent checks of the contracting party, service terms, and payment protections before credentials or payment details are exchanged.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of benevo.co.in.

- The request stayed on benevo.co.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2031-05-10. CLEAR

- The earliest public archive of this site is from 2020-03-26. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about benevo.co.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
