

Is bernex-accueil.ch safe? TrustSniffer's low-trust assessment: 40/100

bernex-accueil.ch

Verdict

40

OUT OF 100

LOW TRUST

bernex-accueil.ch is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

WHAT THIS SITE APPEARS TO BE

Official site for Association Bernex Accueil (ABA): provides information on activities, volunteer signup form, donation instructions including bank/CCP number, contact emails, and event/news listings.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Association Bernex Accueille

What bernex-accueil.ch served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website presents Association Bernex Accueille (ABA), a local nonprofit association supporting the integration and welcoming of migrants in Bernex through community activities, volunteer participation, membership information, and financial or in-kind donations.

Scam/Impersonation Risk

The site's pages present a coherent community-association purpose and do not show a login form, credential-harvesting mechanism, brand impersonation, or commercial investment offer. However, this benign page presentation is outweighed by a confirmed external blacklist status and two malicious detections from external reputation checks. These are material contradictions to the site's apparent nonprofit identity and justify treating sensitive interaction, donation, and account-related activity as elevated risk. No separate legal-entity identity contradiction was observed across the supplied pages.

EVIDENCE

- Homepage: identifies “Association Bernex Accueille” and describes migrant-integration activities, volunteer participation, and donations without presenting phishing or credential-harvesting elements.
- Behavioral inspection of the homepage: no login form, hidden form, external password submission, wallet connection, clipboard manipulation, or suspicious inline script was detected.
- External reputation evidence: 2 malicious detections were recorded and the domain was confirmed as blacklisted.
- Domain provenance: registered 7.091033538672143 years ago; 64 archive snapshots spanning 2019–2026, across 8 years tracked.

Regulatory Verification Notes

The association, committee, historical, and statutes pages provide an apparent organizational structure, but the real-world operator identity remains unverified. No licensing authority or license number is presented, which is a transparency and verification gap rather than proof of criminality; the site’s stated nonprofit and donation-oriented model does not itself establish regulatory authorization. The available broker-reputation context contains no matching record, but that absence is not a legal or licensing determination. The confirmed external reputation warnings remain the principal concern for engagement decisions.

EVIDENCE

- Association and statutes pages: present the name “Association Bernex Accueille” and organizational sections including members, committee, history, and statutes.
- Homepage and donation pages: present a volunteer-and-donation model rather than commercial sales or investment services.
- Hosting telemetry: served from AS29222 (Infomaniak-AS – Infomaniak Network SA, CH).
- Transport security telemetry: TLS certificate issued by YR2, domain-validated (DV), valid to 2026-10-05 22:10:16 UTC.

What to Verify Next

Before any sensitive interaction, an independent party should match the association’s legal name and committee information against the relevant Swiss or cantonal association records. Donation instructions should be validated by confirming the beneficiary name and account details through an independently obtained channel rather than relying solely on the website. Contact channels should likewise be confirmed through an offline or independently sourced route, and any request for credentials or additional personal information should be treated as requiring separate justification.

EVIDENCE

- Association page: provides the stated organizational identity and membership structure to be checked against an independent registry.
- Statutes and committee pages: provide the organizational documents and named governance material needed for comparison.
- Donation page: provides the beneficiary and payment instructions requiring independent confirmation before funds are sent.
- Volunteer signup page: requests personal and contact information, creating a clear basis for limiting submissions until the operator is independently validated.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site appears to serve a plausible local-association purpose, but that apparent legitimacy is not independently established and is contradicted by material external reputation findings. The available evidence therefore does not support treating the site as a verified or dependable destination for sensitive activity.

Infrastructure Integrity

The site is directly hosted by Infomaniak Network SA on AS29222 in Switzerland. No CDN or WAF was identified; resolution showed two likely origin IP addresses and no edge IPs, so the hosting arrangement provides limited protective mitigation against infrastructure-level exposure.

Closing Assessment

Passive viewing may be retained for context, but credentials, personal-information submissions, and financial transactions should remain suspended until the association, payment beneficiary, and contact channels have been independently confirmed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status

UNVERIFIED

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bernex-accueille.ch.

- The request stayed on bernex-accueille.ch. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2019-07-17. CLEAR
- It is hosted on Infomaniak-AS, from a server in CH. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bernex-accueille.ch at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
