

Is bessatec.com.br legit? TrustSniffer's high-trust assessment: 100/100

bessatec.com.br

Verdict

100

OUT OF 100

HIGH TRUST

bessatec.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 70%.

What this site appears to be

Bessa Tecnologia is a Brazilian consulting and software-development company offering customizable business systems, including ERP, CRM, finance, contract, and asset-management products. The site provides a CNPJ, phone numbers, email contacts, business hours, privacy-related documents, and cookie controls.

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Bessa Tecnologia is a Brazilian corporate technology consultancy offering customizable business systems and software products for organizational process management, including ERP, CRM, finance, contract, commission, and asset-management solutions.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, business model, technical behavior, or external reputation signals. The homepage presents a coherent B2B software and consulting purpose, with no phishing, impersonation, financial-manipulation, malicious-content, or suspicious interaction indicators. The business claims are specific and operational—such as scalable ERP functionality, CRM, financial transaction analysis, and asset control—rather than promises of investment returns or implausible financial outcomes.

- The homepage identifies Bessa Tecnologia and describes ERP, CRM, Finance, Contact, and Patrimony products.
- The contact and corporate content provides a CNPJ, telephone numbers, business hours, and email contacts.
- The site's transport encryption is a DV certificate issued by YE2, valid through 2026-10-14.
- The domain was registered on 2023-06-09 and is approximately 3.15 years old; archival records contain 20 snapshots spanning 2024–2026.

Regulatory Verification Notes

The site presents itself as a software and consulting provider rather than a regulated financial service. Its legal and privacy-related materials, corporate registration reference, contact details, business hours, and cookie controls provide a credible disclosure foundation. No specific licensing claim or license number is presented; given the stated technology-services model, this is a limited transparency point requiring confirmation only if a proposed engagement involves a regulated activity. A matched third-party broker profile was not identified.

- The homepage and contact content identify the business as Bessa Tecnologia and provide corporate contact information.
- The site includes privacy-related documents and cookie controls.
- Hosted on AS47583 (AS-HOSTINGER – Hostinger International Limited, CY), with the infrastructure geolocated to UA.
- TLS certificate: issuer YE2, validation level DV, valid to 2026-10-14.

What to Verify Next

For procurement or a material commercial engagement, confirm the displayed CNPJ and contracting entity through the applicable Brazilian corporate registry, and ensure the statement of work identifies the responsible legal entity and data-protection responsibilities. Where a project touches a regulated sector, confirm any sector-specific authorization independently before execution.

- The site provides a CNPJ and identifies privacy and data-security practices, including LGPD references.
- The homepage describes consulting and software delivery rather than deposit-taking or investment solicitation.
- The site provides published contact channels and business hours for independent commercial confirmation.

Summary Verdict

Bessa Tecnologia presents as a legitimate, established, and trustworthy corporate technology website. Its consistent identity, substantive business content, stable behavior, and clean reputation support normal interaction, including account login and standard use.

Infrastructure Integrity

The site is hosted on Hostinger infrastructure under AS47583 and resolves across four likely origin addresses, with no CDN identified. This is a conventional hosting arrangement and does not undermine the site's legitimacy; infrastructure remains a supporting control rather than proof of identity.

Closing Assessment

Normal browsing, account interaction, and standard business engagement are appropriate, with ordinary procurement and contractual checks applied to any material commercial relationship.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bessatec.com.br.

- The request stayed on bessatec.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2028-06-09. CLEAR

- The earliest public archive of this site is from 2024-02-26. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [bessatec.com.br](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
