

Is best-solar-panels.org a scam? TrustSniffer's high-risk assessment: 0/100

best-solar-panels.org

Verdict

0

OUT OF 100

CRITICAL RISK

best-solar-panels.org shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Vietnamese gambling affiliate site (Sunwin) listing and linking to many casino/betting portals and promotions. Encourages registration and deposits on third-party sites with promotional claims; lacks robust regulatory disclosures or verifiable company identity on the page.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What best-solar-panels.org served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2012.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is a Vietnamese-language gambling and casino-affiliate portal presenting Sunwin branding, betting categories, promotional offers, registration links, and referrals to third-party gambling platforms. Its apparent business model is to direct visitors toward partner betting sites and deposit activity through affiliate or advertising links.

Scam/Impersonation Risk

Confirmed external blacklisting creates a material risk for sensitive interaction, even though the available page analysis does not identify direct brand impersonation or a phishing login form. The homepage makes strong assurances that SUN.WIN is the “safe, official and unique” game link, warns visitors not to use other links, and promotes claims including “X3” on an initial deposit and “20 million” rewards; these claims are not supported by verifiable operator information in the supplied content. The site also directs visitors toward registration and deposits on third-party gambling portals, creating an opaque value flow in which the responsible operator, payment recipient, and service obligations are not clear. A provenance discrepancy is also present: the registration record dates from 2026, while historical archive records extend from 2012 through 2026. The

available evidence therefore contains explicit contradiction signals, and the site should not be treated as suitable for credentials, account access, or financial transactions.

EVIDENCE

- The homepage presents Sunwin as the “safe, official and unique” link, warns against alternative links, and advertises “X3” initial deposits and “20 million” rewards.
- External reputation assessment records a confirmed blacklist hit; separate evaluated detections include 1 malicious and 1 suspicious result.
- Registration record: 2026-06-12 (~0.19 years old); registrar: Spaceship, Inc.
- Historical archive coverage: first seen 2012-05-10, last seen 2026-03-08, 15 years tracked.

Regulatory Verification Notes

The site’s legal and identity disclosures are insufficient to establish a real-world operator or a regulated gambling authorization. No license claim, licensing authority, or license number is supplied in the available business-model evidence, and the page content lacks a robust company identity or verifiable business address. This is a regulatory and transparency gap rather than, by itself, proof of criminal conduct; however, it is significant because the site promotes deposit-linked activity. No matching broker record was identified in the available third-party broker context, but that result is not a licensing or legal determination.

EVIDENCE

- The homepage and available site content identify Sunwin and partner brands but do not provide a verifiable legal entity, licensing authority, or license number.
- The domain registration record identifies Spaceship, Inc. as registrar and records an expiry date of 2027-06-12.
- Served from AS13335 (Cloudflare, Inc.; CLOUDFLARENET, US).
- TLS certificate issued by WE1 (DV), valid to 2026-11-09.

What to Verify Next

Before any sensitive interaction, an independent check should confirm the legal entity operating the site and the relevant gambling licence with the competent regulator for the jurisdiction in which the service is offered. Any payment destination, beneficiary name, withdrawal conditions, and dispute process should be checked independently rather than through links supplied by the site. Contact channels should be confirmed through an offline or independently sourced route, and the site’s terms, privacy policy, and responsible-gambling provisions should be reviewed for a named operator and enforceable obligations.

EVIDENCE

- The available page content describes an affiliate and referral model rather than clearly identifying the service operator.
- The site presents registration and deposit-oriented calls to action while the captured page contains no sensitive-input form.
- The available content identifies five material concerns: deposit-before-service, opaque value flow, unsupported claims, unverifiable contact or address information, and aggressive promotional promises.

Summary Verdict

The website has a **critical trust posture** and presents unacceptable exposure for account, credential, payment, or other sensitive interactions. Its apparent gambling-affiliate function, weak operator substantiation, provenance inconsistency, and confirmed blacklist signal converge on a clearly cautionary assessment.

Infrastructure Integrity

The site is fronted by Cloudflare CDN/WAF infrastructure, with all observed addresses belonging to Cloudflare edge servers and no origin server address observable in the analysis. This provides a meaningful traffic-protection layer and can mitigate direct infrastructure exposure, but it does not establish the legitimacy of the site or offset the external reputation concerns.

Closing Assessment

The appropriate operational posture is passive viewing only; credentials, account login, deposits, payment details, and other financial actions should not be submitted through this website or links originating from it.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of best-solar-panels.org.

- The request stayed on best-solar-panels.org. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-12. NOTED
- The earliest public archive of this site is from 2012-05-10. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about best-solar-panels.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
