Full analysis

Overview

BestMebelShop is an established Russian online furniture retailer presenting a broad catalog of home, office, kitchen, bathroom, and children's furniture, with custom sizing, delivery, assembly, showroom access, discounts, reviews, and customer-support functions. Its apparent business model is direct ecommerce sales of manufactured furniture and related services.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or confirmed blacklist findings were observed. The homepage presents a coherent retail model with product categories, pricing, delivery and assembly services, reviews, showroom support, and ordinary login, registration, callback, and ordering functions. The site's long operating history, continuous archival presence, and clean external reputation materially support its legitimacy.

- Domain registered on 2015-02-19 and approximately 11.45 years old.
- 402 archive snapshots spanning 2015–2026, covering 12 tracked years.
- External reputation checks recorded zero malicious detections, zero suspicious detections, and no blacklist hit.
- The homepage is classified as an ecommerce storefront with no detected red flags or impersonation indicators.

Regulatory Verification Notes

The site operates as a commercial furniture retailer rather than presenting an apparent financial or otherwise specially regulated service. Its page content describes company requisites, delivery, warranty, customer reviews, showroom access, and support, while the supplied evidence does not establish a separately verified regulatory license. This is a limited disclosure point for ordinary commercial due diligence, not an identity contradiction or legitimacy concern. No adverse third-party broker match was identified.

- Hosted on AS29182, operated by RU-JSCIOT - JSC IOT, RU.
- TLS certificate issued by GlobalSign RSA OV SSL CA 2018, using OV validation, for OOO BEST-MEBEL; valid to 2026-11-29.
- The homepage provides a broad product catalog, customer-support channels, delivery and assembly information, and customer reviews.
- The site's recorded traffic footprint is within the global top 1 million.

What to Verify Next

- Before a material purchase, the prospective customer should reconcile the seller’s published company requisites with the invoice and payment beneficiary, review delivery, warranty, and returns terms, and independently confirm showroom or support details through the site’s established contact channels.
- The homepage provides contact, callback, login, registration, and order-related forms.
 - Product pages and catalog sections describe furniture categories, pricing, customization, delivery, and assembly.
 - The site presents showroom access, warranty information, promotions, and customer reviews as part of its retail offering.

Summary Verdict

The website presents a legitimate, established, and trustworthy ecommerce posture with no observed scam or impersonation contradictions. Normal interaction, including account login, account actions, and standard transactions, is appropriate within the ordinary expectations of an online furniture retailer.

Infrastructure Integrity

- The site resolves directly to one identified origin address rather than a CDN edge, with hosting provided by RU-JSCIOT - JSC IOT in Russia. Its valid OV certificate provides transport and organizational assurance; the infrastructure is coherent and does not introduce a material trust concern.
- Resolved IP: 37.230.119.58, hosted in Russia.
 - Served from AS29182 (RU-JSCIOT - JSC IOT, RU).
 - TLS issuer: GlobalSign RSA OV SSL CA 2018; validation level OV; expiry 2026-11-29.

Closing Assessment

Normal browsing, account login, ordering, and standard customer-service interaction are proportionate to the site’s established retail profile, subject to ordinary transaction and purchase-record controls.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bestmebelshop.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
