

Is bet-365.bet a scam? TrustSniffer's high-risk assessment: 0/100

bet-365.bet

Verdict

0

OUT OF 100

CRITICAL RISK

bet-365.bet shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Very small parked domain page indicating the domain may be for sale and referencing 'bet-365.bet'. No service, forms, or transactional flows present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What bet-365.bet served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

bet-365.bet is a very small parked-domain page presenting the domain as potentially for sale and displaying the phrase “Find information, resources and relevant links for bet-365.bet,” while referencing “bet-365.bet” and offering no identifiable service, account function, or transaction flow.

Scam/Impersonation Risk

The site has a **critical sensitive-interaction risk posture** because external threat intelligence recorded confirmed blacklist detections, including malicious classifications from multiple security providers. The page itself does not provide evidence of an operating betting service, and its reference to the “bet-365” name occurs in a domain-sale context rather than through a documented brand relationship; this does not independently prove impersonation, but it materially increases the risk of confusion or misuse. No conflicting legal-entity names, login form, phishing form, or confirmed on-page impersonation mechanism were observed. The site should not be used for login, credential submission, financial activity, or other sensitive interaction.

EVIDENCE

- The homepage is a parked-domain page stating that the domain may be for sale and referencing “bet-365.bet,” with no service or transactional flow.
- External reputation telemetry recorded 15 malicious and 1 suspicious detections from 21 effective evaluations; Fortinet, Kaspersky, and Sophos were among the flagged providers.
- The domain was listed by external blacklist sources, while Google Safe Browsing recorded no malicious result.
- Archive telemetry records 16 snapshots spanning 2023–2025, with 3 years tracked; the archive-reconciled domain continuity is 3.08 years.

Regulatory Verification Notes

The available legal material consists of links to Terms of Service and Privacy Policy on the parked page, without a clear operating-company identity, licensing statement, registration number, or regulated-business disclosure. Because the page presents no substantive service, there is no demonstrated basis for treating it as a licensed betting or financial operator. Ownership and governance information remain insufficiently established for independent identity verification. The absence of a broker-dataset match is only contextual and does not constitute regulatory clearance.

EVIDENCE

- The homepage contains only approximately 150 characters of substantive text and links to Terms of Service and Privacy Policy.
- The page does not present a license claim, license authority, or license number.
- WHOIS identifies CommuniGal Communication Ltd. as registrar; the recorded creation date is 2026-06-08 and expiration date is 2027-06-08.
- The site’s transport encryption uses a DV certificate issued by YR1, valid through 2026-10-06.

What to Verify Next

Before any sensitive interaction, an institution should confirm through an independently sourced official channel whether the domain is authorized by the real-world holder of the referenced betting name. If the domain is presented as a regulated gambling, financial, or payment service, its operator and authorization should be checked directly against the applicable jurisdictional registry. No credentials, payment details, wallet approvals, or funds should be submitted unless those checks establish both operator identity and authorization.

EVIDENCE

- The homepage provides no operating-company details or substantive service description to support independent authorization checks.
- The page is identified as “Parked domain / For sale,” rather than as an active service platform.
- Behavioral testing found no login form, hidden sensitive form, wallet connection, external POST, or external XHR activity during two successful runs.

Summary Verdict

The website has a critical trust posture and should be treated as unsuitable for sensitive interaction. Its apparent parked-domain status, unresolved real-world identity, and confirmed external threat detections outweigh the limited technical signs of a functioning web endpoint.

Infrastructure Integrity

The site resolves directly to a likely origin address rather than through a detected trusted CDN or WAF layer. Hosting is associated with Trellian Pty. Limited in Australia; this infrastructure provides no meaningful legitimacy assurance and should be regarded only as a hosting characteristic, not an operator identity signal.

EVIDENCE

- Served from AS133618, TRELLIAN-AS-AP — Trellian Pty. Limited, AU.
- The resolved address is 103.224.212.214; one unique IP and one likely origin IP were identified.
- No CDN or WAF vendor was detected.

Closing Assessment

The appropriate institutional posture is to avoid sensitive interaction with the site and to require independent brand, operator, and authorization confirmation before any engagement beyond passive observation.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct_threat

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bet-365.bet.

- The request stayed on bet-365.bet. It was not redirected to another domain. CLEAR
- Registration is published under CommuniGal Communication Ltd.. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-08. NOTED
- The earliest public archive of this site is from 2023-07-22. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bet-365.bet at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
