

Is bethel.de legit? TrustSniffer's high-trust assessment: 100/100

bethel.de

Verdict

100

OUT OF 100

HIGH TRUST

bethel.de appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 75%.

What this site appears to be

Official-looking homepage of the v. Bodelschwingsche Stiftungen Bethel, an established German charitable organization providing healthcare and social services. The page presents services, news, careers, organizational facts, verifiable contact and legal information, transparency materials, and a donation appeal.

Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 1998.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the online presence of the v. Bodelschwingsche Stiftungen Bethel, a German charitable organization presenting healthcare, disability support, elder care, mental-health services, youth programs, careers, organizational information, and opportunities for one-time or recurring donations.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or other fraud signals were observed. The donation function is consistent with the organization's stated charitable model, and the homepage does not contain a login form, hidden form, sensitive-data form, or untrusted form destination. This clean page behavior converges with a long-established domain history, extensive archival coverage, an established global traffic footprint, and clean external threat reputation.

- The domain dates to 1998 and is approximately 28.51 years old; the web archive contains 3,141 snapshots from 25 January 1998 through 18 July 2026, spanning 29 tracked years.
- The homepage presents a single donation-amount form with no sensitive fields or untrusted destination; no hidden forms, external password forms, cloaking, wallet interaction, clipboard hijacking, or suspicious inline scripts were detected.
- External reputation assessment recorded 0 malicious detections, 0 suspicious detections, no malicious safe-browsing classification, no external threat listing, and 0 reported hosting-IP abuse incidents.
- The domain holds global traffic rank 287,750, placing it within the top one million measured websites.

Regulatory Verification Notes

The site identifies a specific charitable and social-services organization and provides organizational facts, leadership information, physical contact details, financial-transparency resources, annual reporting, and tax-exemption material. Its described activities do not constitute an asserted brokerage, investment, or crypto service, and the site makes no corresponding financial-services licence claim. The available evidence therefore supports a coherent nonprofit identity rather than a regulated-financial-business representation.

- The "About Bethel" area identifies the organization, its governing board, principles, history, and obligations under Germany's Supply Chain Due Diligence Act.
- The homepage and transparency materials present tax-exemption information, annual financial reporting, organizational facts, and verifiable contact details.
- The site is served from AS8925 by TEUTONET-AS / teuto.net Netzdienste GmbH in Germany.
- The site's transport encryption uses a DV TLS certificate issued by YE2, valid until 14 October 2026.

What to Verify Next

For unusually large donations, institutional partnerships, testamentary gifts, or endowments, the current payment instructions and authorized recipient should be confirmed through independently sourced organizational contact details. Relevant annual reports, tax-exemption documentation, project restrictions, and donation-receipt terms should also be reviewed according to the prospective donor’s governance requirements.

- The donations area offers multiple contribution routes, including direct donations, institutional support, endowments, testamentary giving, and project-specific assistance.
- The publications and organizational-transparency areas provide materials suitable for financial and governance due diligence.
- The contact and organizational sections provide channels through which payment instructions and authorized representatives can be independently confirmed.

Summary Verdict

The site is a legitimate, established, and trustworthy organizational website. Its identity, operating purpose, historical provenance, page behavior, and external reputation converge without material inconsistency, supporting a high-confidence trust posture.

Infrastructure Integrity

The site uses directly resolved German hosting rather than a CDN or WAF, with five likely origin addresses visible in the observed infrastructure. This is a conventional hosting posture; the identified network, stable resolution, valid encryption, and absence of reported abuse provide mitigating technical assurance, although infrastructure alone is not proof of organizational legitimacy.

Closing Assessment

Normal interaction, including use of site forms, account login where offered, routine service engagement, and standard donations, is appropriate; enhanced confirmation is proportionate only for unusually large or institutionally governed commitments.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bethel.de.

- The request stayed on bethel.de. It was not redirected to another domain. CLEAR
- DNS for this domain is served by teuto.net, across 3 name servers. NOTED
- The earliest public archive of this site is from 1998-01-25. CLEAR
- It is hosted on TEUTONET-AS, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bethel.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
