

Is betonlotosovo.ru safe? TrustSniffer's low-trust assessment: 40/100

betonlotosovo.ru

Verdict

40

OUT OF 100

LOW TRUST

betonlotosovo.ru is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be	Website for a concrete plant in Lotosovo (Dmitrovsky district) offering production and delivery of various concrete grades and fibrous concrete. Provides phone, email, physical address, client testimonials, price calculator and ordering/contact options. Emphasizes being an original producer and warns about intermediaries.

What betonlotosovo.ru served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is a local concrete-production and delivery service serving customers in the Dmitrovsky, Pushkinsky, and Sergiyev Posadsky districts, presenting ready-mix concrete, fibrous concrete, delivery arrangements, pricing, testimonials, and ordering options for contractors and private customers.

Scam/Impersonation Risk

The site presents a coherent local-business model and its pages contain no detected login form, wallet-connect mechanism, hidden sensitive form, or explicit page-level phishing or brand-impersonation indicators. However, this positive content signal is materially outweighed by confirmed external blacklist detections and multiple malicious classifications associated with the domain. The site's claims that it is the only concrete plant in the relevant district, that competing offers are intermediaries or informal production, and that the business has operated under the same name and address since 2002 are not independently verified by the supplied evidence; these claims should therefore be treated as assertions rather than proof of identity. A separate abuse report relates to shared hosting infrastructure and is explicitly discounted as an attribution to the website itself, but it does not offset the domain-level reputation contradiction.

EVIDENCE

- The homepage describes production of concrete grades M100–M350, fibrous and colored concrete, delivery, pumping arrangements, a price calculator, and direct ordering.
- External reputation telemetry recorded 3 malicious detections and an external blacklist hit for the domain; a general browser-safety check did not report a malicious result.
- The homepage's form analysis identified 1 order/contact form with no sensitive form fields, and behavioral testing recorded 0 wallet-connect runs, 0 wallet-sensitive runs, and 0 wallet-drainer runs.

Regulatory Verification Notes

The site identifies the operating business as ООО «Спецстройбетон-Д» and provides business-oriented pages for contacts, prices, requisites, delivery, and reviews. The supplied page content does not independently establish that this legal entity controls the domain, so the operator identity remains unverified. No license or registration number is disclosed in the supplied content; for a concrete supplier this is a transparency and verification matter rather than standalone evidence of a scam. The available third-party broker dataset contained no matching record and therefore provides no additional reputational conclusion.

EVIDENCE

- Domain registration records show registration on 2017-06-22, an age of 9.17 years, and expiration on 2027-06-22; the registrar is REGRU-RU.
- The site is hosted on AS8342, RTComm.RU, with infrastructure registered through RIPE NCC in Russia.
- The site uses a DV TLS certificate issued by YR1, valid through 2026-09-24T15:30:10+00:00.
- The homepage contains a "Реквизиты" page link and identifies ООО «Спецстройбетон-Д», but the supplied material does not independently validate the entity-domain relationship or any licensing status.

What to Verify Next

Before placing an order or making payment, the prospective customer should independently confirm ООО «Спецстройбетон-Д» in the relevant Russian corporate registry and ensure that the registry address, telephone details, and contracting entity match the site's documents. The stated plant address and delivery coverage should be confirmed through an independently sourced telephone number or an in-person commercial check. Any quotation, invoice, bank-account ownership, product standards, and laboratory-quality claims should be matched to the same legal entity before funds are transferred.

EVIDENCE

- The homepage states that the plant is located in Lotosovo near the A-107 ring road and offers delivery across the Dmitrovsky, Pushkinsky, and Sergiyev Posadsky districts.
- The site states that concrete quality is controlled by the certified laboratory ООО «Технотест»; that relationship and the cited quality standards require independent confirmation.
- The ordering workflow is presented through telephone and site contact/order widgets rather than a sensitive credential-collection form.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interaction**. Although the website has substantive local-business content and a plausible commercial purpose, the confirmed domain-level reputation contradictions and unresolved operator verification prevent the available evidence from supporting ordinary high-confidence engagement.

Infrastructure Integrity

The site resolves directly to a likely origin address with no detected CDN or WAF layer, so the infrastructure provides limited protective separation between the service and its hosting environment. This is a mitigating limitation rather than proof of maliciousness, but it offers no meaningful counterweight to the domain-level reputation findings.

EVIDENCE

- One unique IP was identified: 195.161.68.8; edge IP count was 0 and likely origin IP count was 1.
- Hosting infrastructure is AS8342, RTComm.RU, JSC RTComm.RU, RU.
- TLS validation is DV, issued by YR1, with validity ending 2026-09-24T15:30:10+00:00.

Closing Assessment

Use should remain limited to read-only browsing until the contracting entity, registry status, delivery arrangements, and payment destination have been independently confirmed; credentials and financial transactions should not be submitted while those checks remain outstanding.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 195.161.68.8 (Avguro Technologies Ltd. Hosting service provider, Data Center/Web Hosting/Transit), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of betonlotosovo.ru.

- The request stayed on betonlotosovo.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGRU-RU. CLEAR
- DNS for this domain is served by ru., across 4 name servers. NOTED
- The registration is paid up to 2027-06-22. NOTED
- The earliest public archive of this site is from 2017-08-10. CLEAR
- It is hosted on RTCOMM-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about betonlotosovo.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
