Full analysis

Overview

The website presents itself as the Ukrainian charitable foundation “Міжнародні горизонти” (“International Horizons”), offering information about its mission, values, humanitarian-aid activities, partnerships, team, gallery, contacts, and supporting documents, with an apparent nonprofit model based on donations and charitable cooperation.

Scam/Impersonation Risk

No contradictions were observed. The site’s content is internally consistent with a charitable foundation: it describes humanitarian assistance in Ukraine, identifies a formal Ukrainian charitable-organization name, references a statute, and links to Facebook. The pages contain no login form, sensitive data-collection form, wallet-connection feature, or detected phishing behavior. A low-confidence similarity heuristic associated the page with “g.page,” but the page-level assessment did not identify brand impersonation, and no confirmed phishing, blacklist, or malicious-reputation signal was present. Identity is therefore **apparently legitimate but not independently verified** rather than proven.

EVIDENCE

- The homepage identifies the organization as “Благодійний фонд ‘Міжнародні горизонти’” and describes humanitarian-aid work in Ukraine.
- The “About the Foundation” content names the full legal-style organization as “БЛАГОДІЙНИЙ ФОНД РОЗВИТКУ ТА ДОПОМОГИ МІЖНАРОДНІ ГОРИЗОНТИ” and states that it operates under Ukrainian law and its statute.
- The site’s forms and behavior showed no login form, sensitive form, hidden form, wallet activity, clipboard manipulation, or external network posting.
- Registration continuity records WHOIS creation on 2026-07-24, while historical continuity records first observation on 2023-12-08, an authoritative domain age of 2.70 years, 30 archive snapshots spanning 2023–2026, and 4 years tracked.

Regulatory Verification Notes

The website provides meaningful organizational substance through its mission, values, partnership information, humanitarian-aid reports, team and contact sections, and a published statute reference. It does not claim a specific regulatory license or display a license number in the supplied content; for a charitable organization, that is a transparency and verification point rather than evidence of deception. The available evidence supports a moderate-trust posture, while the real-world operator connection remains likely rather than independently verified. No matching third-party broker-reputation record was identified, which is contextual support only and not a legal or licensing determination.

EVIDENCE

- The “Documents” area references the Foundation’s statute.
- The site describes itself as a nongovernmental, nonprofit charitable organization established under the Constitution of Ukraine and the Ukrainian law governing charitable activity and charitable organizations.
- The site’s transport encryption uses a DV certificate issued by YR2, valid through 2026-10-22 11:44:49 UTC.
- The site resolved successfully from AS196645, HOSTPRO-AS – HOSTPRO LAB LLC, UA.

What to Verify Next

Before a substantial donation, partnership, or other sensitive transaction, the organization’s legal name and charitable status should be checked against the relevant Ukrainian public registry, and the published statute should be compared with the registry record. Payment instructions should be confirmed through an independently sourced organizational channel, and any proposed beneficiary, campaign, or humanitarian-aid claim should be matched to documentation from the stated institution or partner.

EVIDENCE

- The “About the Foundation” page supplies the organization’s formal name for registry comparison.
- The “Documents” page identifies the statute as the principal governance document available on the site.
- The homepage and contact-related navigation provide the site’s stated communication and partnership routes.
- The Facebook link provides a separate public-facing channel that can be checked for consistency with the organization’s stated activities.

Summary Verdict

The website has a **moderate-trust posture** consistent with an apparently legitimate charitable organization, supported by coherent nonprofit content, documented governance references, stable technical behavior, and an absence of confirmed threat or impersonation indicators. The principal limitation is that the operator’s real-world identity and regulatory standing are not independently established by the supplied evidence.

Infrastructure Integrity

The site is hosted in Ukraine through HOSTPRO-AS – HOSTPRO LAB LLC on AS196645, with two likely origin addresses and no detected CDN or WAF layer. Its valid DV TLS certificate provides transport protection, but the hosting arrangement should be treated as a mitigating technical control rather than proof of organizational legitimacy.

Closing Assessment

Ordinary informational use is proportionate to the observed posture; substantial donations, formal partnerships, and sensitive transactions should proceed only after the organization and payment arrangements have been independently corroborated.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bfmfg.com.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
