Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Bhubaneswar Cab Yatra is a local taxi and tour-operator website serving Bhubaneswar, India, presenting vehicle categories, per-kilometre fares, tour packages, and phone- or email-based booking for local and regional transport services.

Scam/Impersonation Risk

The site's page content describes a conventional local transport business and shows no login form, credential-harvesting workflow, wallet connection, or clear brand-impersonation indicators. However, the domain has a confirmed blacklist presence supported by multiple external sources, including malicious detections; this is a material contradiction to the otherwise ordinary service presentation and creates elevated risk for sensitive interactions. The available evidence does not establish that the operator is impersonating a specific named brand, but the adverse external reputation signal should take precedence over the site's benign appearance.

EVIDENCE

- External reputation telemetry records a confirmed blacklist hit, with 3 malicious and 1 suspicious detections among evaluated results.
- Historical provenance records first observation on 2020-10-29 and an archive-reconciled domain age of 5.809719370294319 years.
- The archive contains 938 snapshots spanning 2020–2026, covering 7 tracked years; no suspicious repurposing or semantic category drift was identified.
- The homepage and booking flow expose ordinary local-service content, with no login form, hidden sensitive form, wallet-connect activity, or suspicious inline scripts observed.

Regulatory Verification Notes

The website's apparent business model is a direct-payment taxi and tour service, but the supplied pages do not independently verify the operating legal entity, transport authorization, tourism registration, or any applicable license number. This is a regulatory and disclosure gap rather than proof of fraud; nevertheless, the operator's real-world identity remains unverified, and the confirmed external reputation issue materially limits reliance on the site for transactions. The transport pricing and service descriptions provide commercial detail, but they do not substitute for independently verifiable corporate or regulatory information.

EVIDENCE

- The homepage and About content identify “Bhubaneswar Cab Yatra” but do not provide an independently verified legal-entity identity or registration number.
- The business-model pages do not claim a license authority or publish a license number.
- Domain registration telemetry names HOSTINGER operations, UAB as registrar.
- The site is hosted on AS47583 (AS-HOSTINGER - Hostinger International Limited, CY); TLS is issued by YE2 at DV validation level and is valid to 2026-11-15T09:32:39+00:00.

What to Verify Next

Before any payment, booking commitment, or submission of personal information, the operator's legal name and local operating authority should be confirmed through an independent transport or tourism registry. Fare, cancellation, refund, vehicle, and passenger-liability terms should be obtained in writing, and payment should use a method offering dispute or chargeback protection. Contact details should also be validated through an independently sourced business listing or offline channel rather than relying solely on the website.

EVIDENCE

- The About and Contact pages are the relevant locations for reconciling the trading name with a legal operator and independently sourced contact information.
- The Tariff and service pages are the relevant locations for confirming the quoted fare basis, inclusions, exclusions, and cancellation conditions.
- The booking model indicates direct customer arrangements by phone, email, or quote request, making independent confirmation of the counterparty and payment recipient important before commitment.

Summary Verdict

The site has a **low-trust posture** with a substantial risk of sensitive interaction. Its ordinary local-service presentation and technically stable operation do not overcome the confirmed adverse external reputation signal, while the real-world operator identity remains unverified. Browsing for general information may be distinguished from relying on the site for credentials, payments, or other sensitive activity.

Infrastructure Integrity

The site resolves directly to infrastructure associated with Hostinger, with no CDN detected and likely origin candidates visible. This provides less intermediary protection than a clearly fronted CDN/WAF deployment, and the hosting arrangement does not offset the adverse reputation evidence.

Closing Assessment

Prospective users should limit activity to non-sensitive browsing until the operator, applicable permissions, commercial terms, and payment protections have been independently confirmed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bhubaneswarcabyatra.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
