Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Bijay Aluminium Fabricator Pvt. Ltd. is a local business website presenting aluminium fabrication, uPVC, toughened-glass, metal and grill works, related products, project information, contact details and installation services for customers in Bhaktapur, Nepal.

Scam/Impersonation Risk

The site's content describes an ordinary local fabrication business and contains no detected brand-impersonation indicators, suspicious forms, credential fields or unusual browser behavior. However, this benign presentation is outweighed by confirmed external threat detections, including a blacklist hit and multiple malicious classifications. The associated abuse reporting concerns a shared data-centre hosting address rather than being directly attributed to the business, but the structured assessment does not discount the blacklist signal; accordingly, sensitive interaction with the site presents elevated risk.

EVIDENCE

- The homepage identifies “Bijay Aluminium Fabricator Pvt. Ltd.” and describes aluminium, uPVC, glass, metal and grill fabrication services.
- The site's behavioral assessment recorded no login form, hidden sensitive form, wallet activity, external POST activity or cloaking.
- External reputation checks recorded 3 malicious and 2 suspicious detections, together with a confirmed blacklist hit.
- The domain registration record shows creation on 2020-02-07 and an age of 6.54 years.

Regulatory Verification Notes

The website presents itself as a local service provider rather than a financial or regulated-services business. Its pages provide a business name, Bhaktapur location, telephone contacts and service descriptions, but no license claim or license number is recorded; this is a disclosure gap requiring confirmation if the proposed engagement involves activities subject to licensing. The available evidence is not sufficient to independently verify the operating entity, and the low page-authority signal provides no additional basis for treating the on-site identity as proven.

EVIDENCE

- The homepage and contact content describe the business as operating in Bhaktapur, Nepal and provide contact numbers and a physical address.
- The services and products pages describe fabrication, supply and installation work, including aluminium doors, windows, partitions, shelving and toughened glass.
- No license authority or license number is claimed in the available business-model and page-content evidence.
- The domain is registered through OwnRegistrar, Inc., with an expiration date of 2027-02-07.

What to Verify Next

Before any sensitive interaction, an independent party should confirm that the legal business name, physical premises and contact details correspond to a real operating entity. Where a proposed contract, advance payment or regulated activity is involved, licensing or registration should be checked with the relevant Nepalese authority and payment protections should be confirmed independently of the website. Official contact channels should also be validated through an offline or independently sourced route before exchanging documents or funds.

EVIDENCE

- The site provides business and contact information but does not independently establish the operator's legal identity.
- The available content describes service quotations, product sales and site work rather than a formal online transaction workflow.
- The site contains no sensitive submission form, so verification should occur through independently sourced business channels rather than website credentials.

Summary Verdict

The website has a plausible local-business presentation but remains a **low-trust, sensitive-interaction-risk** destination because confirmed external threat detections and blacklist status materially outweigh its otherwise ordinary content and stable technical operation. The operator’s real-world identity is only apparently connected to the stated business and should not be treated as independently verified.

Infrastructure Integrity

The site resolves directly to a single origin address, with no detected CDN or WAF and no edge-IP separation. It is hosted by WHG-LON - WHG Hosting Services Ltd in Great Britain on AS51713; this infrastructure fact is not, by itself, evidence of malicious ownership, but it provides limited protective mitigation. The site’s transport encryption uses a valid DV certificate issued by YR1, expiring on 2026-10-19.

Closing Assessment

Sensitive actions—including credential submission, document exchange, advance payment and financial transactions—should be deferred unless the operator and proposed engagement are independently confirmed through trusted channels.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 82 reports on hosting IP 192.250.239.58 (WHG Hosting Services Ltd, Data Center/Web Hosting/Transit), 94% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bijayaluminiumfab.com.

- The request stayed on bijayaluminiumfab.com. It was not redirected to another domain. CLEAR
- Registration is published under OwnRegistrar, Inc.. CLEAR
- DNS for this domain is served by prabhuhost.com, across 4 name servers. NOTED
- The registration is paid up to 2027-02-07. NOTED
- The earliest public archive of this site is from 2021-11-27. CLEAR
- It is hosted on WHG-LON, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bijayaluminiumfab.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
