Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a Japanese motorcycle-focused news and information portal presenting vehicle announcements, test rides, columns, customization, bicycle coverage, food, history, and motorsports content, with an apparent advertising, sponsored-content, and media-partnership business model.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents coherent editorial content across motorcycle news, reviews, culture, and related topics; it contains no login form, sensitive submission form, credential-harvesting mechanism, cryptocurrency feature, or detected brand impersonation. External reputation evidence is clean, with no malicious or suspicious detections recorded.

- Homepage classified as an established news-media site with no phishing indicators or sensitive forms.
- Homepage content identifies recurring editorial coverage, including Honda, Yamaha, Harley-Davidson, Triumph, Vespa, and motorsports topics.
- Domain age: 7.340177960301164 years; first archived observation: 2019-03-30T08:28:58Z.
- Web archive: 865 snapshots spanning 2019-03-30T08:28:58Z to 2026-07-24T02:46:52Z, covering 8 years.

Regulatory Verification Notes

The homepage identifies mediavague Co., Ltd. as the operator and presents an editorial media model rather than a financial-services offering. No licence claim or licence number is presented, which is a minor disclosure point for formal vendor onboarding but not an indication of deception in this context. The available third-party broker context produced no match.

- Homepage identifies the operator as mediavague Co., Ltd.
- Homepage labels sponsored material with “PR” and presents advertising and media-partnership content.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1, validation level DV, valid to 2026-09-29T14:26:09+00:00.

What to Verify Next

For formal commercial engagement, confirm the operator's current corporate and contact details through an independent business source and retain ordinary checks for sponsorship and advertising disclosures. Any future regulated service claim should be checked directly against the relevant jurisdictional register.

- Homepage provides the operator attribution used for independent corporate verification.
- Homepage distinguishes sponsored articles from ordinary editorial coverage.
- The site's stated activity is informational publishing rather than regulated financial intermediation.

Summary Verdict

The website presents as a legitimate, established, and trustworthy editorial publication with a coherent identity, sustained historical continuity, clean reputation signals, and no observed impersonation or phishing indicators. Normal interaction, including account login where offered and standard site use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and the observed addresses are CDN edge servers rather than the origin. This provides a mitigating layer against direct origin exposure but is not, by itself, proof of legitimacy.

Closing Assessment

Normal browsing and standard interaction are appropriate; organizations entering a formal commercial relationship should apply their usual onboarding and corporate-verification procedures.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bike-news.jp.

- The request stayed on bike-news.jp. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2019-03-30. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bike-news.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
