

# Is bilottamosaici.com legit? TrustSniffer's high-trust assessment: 100/100

bilottamosaici.com

## Verdict

100

OUT OF 100

HIGH TRUST

bilottamosaici.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking small business site for Antonio Bilotta, a mosaic artist and installer showcasing services, project gallery, and contact information for quotes.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## At a glance

## The page as captured

<https://bilottamosaici.com/>

What bilottamosaici.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

## Full analysis

### Overview

Bilotta Mosaicista is a local artisan and portfolio website for Antonio Bilotta, presenting mosaic artistry, installation services, project examples, quotation requests, and contact channels for prospective residential and commercial clients.

### Scam/Impersonation Risk

No contradictions were observed: the site presents a coherent artisan-services identity, and the available evidence contains no phishing, impersonation, malicious-content, or blacklist indicators. Its homepage and service sections describe a conventional commission-based business involving artistic and traditional mosaic installation, large-format stone slabs, ecomalte surfaces, marble work, and flooring or wall coverings; the content does not promote financial products, credential collection, or cryptocurrency activity. A soft reputational signal exists at the hosting-IP level because the shared provider address has received abuse reports, but that attribution applies to shared infrastructure rather than demonstrating malicious conduct by this website. The real-world operator connection remains likely rather than independently verified.

#### EVIDENCE

- The homepage identifies “Antonio Bilotta” and describes nearly three decades of mosaic, marble, large-format-slab, and ecomalte installation work.
- Domain registration evidence records 2010-12-06 creation and 15.72 years of age; the registrar is TUCOWS.COM, CO.
- Archival records cover 2013–2025, representing 13 years tracked; the available archival coverage is sparse and does not indicate suspicious repurposing.
- The homepage and contact page contain no login form, hidden sensitive form, or external password-submission destination.

#### Regulatory Verification Notes

The site’s apparent business model is an ordinary local trade-service operation rather than a regulated financial activity. The pages provide service descriptions, project material, quotation functionality, and contact details, but the supplied content does not independently establish the operator’s legal identity or present a licensing or registration number. This is a limited disclosure point for commercial due diligence, not evidence of impersonation or fraud. No broker-dataset match was identified, and the hosting-IP abuse signal should be treated only as contextual reputation information because it concerns shared provider infrastructure.

#### EVIDENCE

- The services, projects, quotations, and contact sections form a consistent corporate-portfolio structure focused on commissioned installation work.
- The site publishes a telephone contact, a business email address, and a Facebook link on its contact-related content.
- TLS uses issuer YE2 with DV validation and is valid through 2026-10-25.
- The site is hosted by HOST-SPA - Host SpA, IT, on AS47242.

#### What to Verify Next

Before a credential or payment interaction, an institution or customer should independently confirm the contracting party’s legal name, invoicing details, and applicable local business registration through an authoritative registry or documentation supplied outside the website. For a proposed installation, the counterparty should confirm the quotation, warranty and remedial terms, payment schedule, and any applicable return or cancellation arrangements in writing. Contact channels should be corroborated through an independent route, such as a verified social profile or an offline reference, before funds or sensitive information are exchanged.

#### EVIDENCE

- The website offers quotation requests rather than an online checkout or payment workflow.
- The available page set includes service, project, quotation, and contact sections but does not supply independently verified legal-entity documentation.
- The site links to Facebook as an external social-presence channel.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate local-business website and supports a high-trust, low-risk posture. The assessment is reassuring for ordinary browsing and business evaluation, while the operator’s real-world identity should remain treated as likely rather than proven.

Infrastructure Integrity

The site resolves directly to infrastructure operated by HOST-SPA - Host SpA, IT, on AS47242 in Italy, with no CDN or WAF identified and no separate origin candidates observed. Its transport encryption is provided by a valid DV certificate from YE2, which is a positive technical control but does not independently establish business legitimacy.

EVIDENCE

- Hosting infrastructure: AS47242, HOST-SPA - Host SpA, IT; resolved IP 81.31.158.71 in Italy.
- No CDN, edge IPs, WAF vendor, or origin candidates were identified.
- TLS certificate: issuer YE2, validation level DV, valid to 2026-10-25.

Closing Assessment

The site is suitable for normal informational and commercial consideration, with ordinary independent checks of the counterparty and transaction terms completed before credentials or payment details are submitted.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 8 reports on hosting IP 81.31.158.71 (Host SpA, Data Center/Web Hosting/Transit), 33% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 73/100 |
| Identity verification confidence | 37%    |

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bilottamosaici.com.

- The request stayed on bilottamosaici.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under TUCOWS.COM, CO.. [CLEAR](#)

- DNS for this domain is served by host-anycast.it, across 2 name servers. NOTED
- The registration is paid up to 2028-12-06. CLEAR
- The earliest public archive of this site is from 2013-06-15. CLEAR
- It is hosted on HOST-SPA, from a server in IT. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about bilottamosaici.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
