

Is bimucn.com a scam? TrustSniffer's high-risk assessment: 0/100

bimucn.com

Verdict

0

OUT OF 100

CRITICAL RISK

bimucn.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

The page is a generic hosting 'Account Suspended' notice with no service, forms, links, or commercial content visible. No active business model or user interactions are present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	9 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	9.4 years old Registered history	CLEAR
Web archive	Archived since 2018 Public history exists	CLEAR
Certificate	Encrypted connection Issued by WE1	NOTED

What bimucn.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos, Fortinet, Google flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

bimucn.com currently presents only a generic hosting “Account Suspended” notice stating that the account has been suspended and directing contact with the hosting provider; it exposes no functioning service, commercial offering, user interaction, or identifiable operating purpose.

Scam/Impersonation Risk

The site has a confirmed **blacklist** status supported by multiple external security sources, including nine malicious detections, and this is the decisive contradiction in the assessment. The absence of active service content prevents confirmation of an operating business, while the independently verified operator identity remains unresolved. No brand impersonation or phishing form was observed on the suspended page itself, but those observations do not offset the external threat detections or the confirmed blacklist status.

EVIDENCE

- The homepage displays only an “Account Suspended” hosting notice and contains no service, forms, links, or commercial content.
- External security intelligence recorded 9 malicious detections and a confirmed blacklist hit.
- Domain registration records show registration on 2017-03-14, with an age of 9.44 years.
- Web-archive coverage records 0 snapshots spanning 2018–2025, representing 8 years tracked.

Regulatory Verification Notes

No active legal, licensing, or corporate disclosure can be assessed from the suspended page, and no license claim or license number is presented there. The available identity evidence is therefore insufficient to connect the domain independently to a real-world operator. The domain is registered through Web Commerce Communications Limited dba WebNic.cc; that registrar fact does not establish the operator’s legitimacy or regulatory standing. The absence of a broker-dataset match is only contextual and is not a licensing determination.

EVIDENCE

- The suspended page provides no company name, registered address, license authority, registration number, terms, or regulatory disclosure.
- WHOIS identifies Web Commerce Communications Limited dba WebNic.cc as registrar, with an expiration date of 2028-03-14.
- The site is served through AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The transport certificate is issued by WE1, uses DV validation, and is valid to 2026-10-24T07:22:56+00:00.

What to Verify Next

Before any account, credential, payment, or other sensitive interaction, an independent party should confirm the intended operator through an offline or previously trusted channel and verify any claimed authorization directly with the relevant regulator or corporate registry. The site should not be treated as an active service until its suspension is resolved and its legal identity, support channels, and applicable consumer protections can be independently established.

EVIDENCE

- The current page exposes no login form, sensitive form, wallet connection, external submission, or active business workflow.
- Behavioral testing recorded 0 external XHR requests, 0 external POST requests, 0 hidden forms, and 0 wallet-connect runs.
- The page title is “Account Suspended,” and the observed page type is “Account Suspended / Hosting Notice.”

Summary Verdict

The website has a critical trust posture and should be treated as unsuitable for sensitive interaction. The conclusion is driven by the convergence of confirmed external threat detections, the blacklist status, the unresolved operator identity, and the lack of an operational or legally informative website presentation.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, with all observed addresses attributable to CDN edge infrastructure and no origin candidate identified in the analysis. This provides a mitigating layer against direct exposure of the origin but is not evidence that the website or its operator is legitimate.

Closing Assessment

Sensitive interaction should be withheld unless independent identity, authorization, and service legitimacy checks produce clear, authoritative confirmation.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bimucn.com.

- The request stayed on bimucn.com. It was not redirected to another domain. [CLEAR](#)

- Registration is published under Web Commerce Communications Limited dba WebNic.cc. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-03-14. CLEAR
- The earliest public archive of this site is from 2018-08-08. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bimucn.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
