

Is bioport.com.tr legit? TrustSniffer's high-trust assessment: 100/100

bioport.com.tr

Verdict

100

OUT OF 100

HIGH TRUST

bioport.com.tr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Bioport corporate site (Turkish) for a dental implant and biomaterials distributor. Provides product lines, company history, contact details, FAQs, and event/education information. Visible contact phone, fax, email and office address. No payment solicitations or investment offerings detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What bioport.com.tr served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Bioport is a Turkish-language corporate website presenting a professional dental-product distribution and education business, with information for dental clinics, product users, and healthcare professionals rather than a consumer financial or investment service.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The site's corporate presentation, consistent Bioport branding, professional social-media links, and established registration continuity support an apparently legitimate operating profile, although the real-world operator identity remains likely rather than independently verified. Available external reputation checks did not identify malicious or suspicious activity, and no broker-related match was present.

EVIDENCE

- The homepage and corporate navigation identify Bioport and link to Facebook, Instagram, YouTube, and LinkedIn.
- The domain was registered on 2004-10-04 and is approximately 21.89 years old.
- Historical records show 115 archive snapshots from 2008 through 2026, covering 19 tracked years, with no suspicious repurposing identified.
- Available external checks recorded zero malicious findings, zero suspicious findings, no blacklist hit, and zero abuse reports.

Regulatory Verification Notes

The site presents a conventional business model involving dental implants, biomaterials, professional education, clinical studies, congresses, and training. It identifies product lines associated with Geistlich Biomaterials, Thommen Medical, and Southern Implants, but the supplied pages do not state a license number or regulatory authorization. That is a verification and disclosure gap for a healthcare-product distributor, not evidence of deception. The visible business and contact content is substantial, while the site's legal and regulatory status should be confirmed independently before a commercial relationship is established.

EVIDENCE

- The homepage and products pages describe Geistlich Biomaterials, Thommen Medical, and Southern Implants.
- The professional pages advertise clinical studies, congresses, and training activities for dental professionals.
- The site's transport encryption uses a DV certificate issued by YE2, valid to 2026-11-01.
- The hosting infrastructure is AS47583, operated by AS-HOSTINGER — Hostinger International Limited, CY, with service resolution in Germany.

What to Verify Next

An intending customer or institutional counterparty should confirm Bioport's registered merchant identity and any applicable healthcare-product distribution authorization through the relevant Turkish corporate and regulatory registries. Before payment or credential exchange, the counterparty should independently confirm the commercial contact route, review the applicable sales, delivery, warranty, and return terms, and use payment methods that provide appropriate transaction protection. Product authenticity and authorized-distributor status should also be confirmed directly with the named manufacturers where material procurement is involved.

EVIDENCE

- The contact page includes a contact form and publishes business contact details.
- The site contains dedicated corporate, FAQ, product, and professional-information sections that can be used to reconcile commercial terms.
- No login form, password-collection form, or untrusted form destination was detected.
- The site does not present payment solicitations or investment offerings.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated corporate purpose. The assessment does not independently prove the real-world operator's identity, so legitimacy should be understood as evidence-consistent rather than conclusively verified.

Infrastructure Integrity

The site resolves directly to two likely origin addresses, with no edge CDN IPs identified and no CDN detected in the observed deployment. This is a conventional hosting posture; the resolved infrastructure and valid transport encryption provide useful technical integrity signals but are not, by themselves, proof of organizational legitimacy.

Closing Assessment

Normal browsing and ordinary business engagement are proportionate to the current assessment, subject to independent merchant-identity, commercial-policy, and payment-protection checks before credentials or payments are exchanged.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bioport.com.tr.

- The request stayed on bioport.com.tr. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com. NOTED
- The registration is paid up to 2029-10-03. CLEAR
- The earliest public archive of this site is from 2008-02-10. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bioport.com.tr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
