Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Bitcoin World is a cryptocurrency and blockchain news portal covering crypto markets, Bitcoin and altcoins, AI, forex, reviews, interviews, educational material, sponsored articles, press releases, and advertising, with an apparent media and promotional-content business model.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or confirmed malicious reputation signals were observed. The homepage functions as an informational news and media portal, with no login form, sensitive data-collection form, wallet connection, or credential-harvesting behavior identified. Its crypto-market focus and coverage of tokens such as Bitcoin, Ethereum, Solana, and XRP create ordinary sector-related exposure, but the supplied content does not show direct deposit solicitation or deceptive transaction behavior.

- Homepage classification: "News and media homepage," with no sensitive forms or login form detected.
- Homepage content describes crypto, blockchain, AI, forex, educational, review, sponsored, and press-release coverage.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The site presents itself as a media publisher rather than a financial-services provider. Its navigation includes About Us, Contact Us, Privacy Policy, Sponsored, Press Release, Media Kit, and Advertisement areas; no financial-services license or registration number is claimed in the supplied content, so any regulated offering should be assessed separately from the site's editorial function. The available third-party context contained no matching broker-reputation record.

- Homepage navigation includes About Us, Contact Us, and Privacy Policy pages.
- Homepage identifies Sponsored, Press Release, Media Kit, and Advertisement sections.
- Domain registered through GoDaddy.com, LLC on 2020-06-03 and expires on 2028-06-03; age 6.16 years.

What to Verify Next

For a commercial relationship, confirm the disclosure and labeling of sponsored or promotional material on the relevant article page, and independently validate any financial or market claim through the named issuer or applicable public registry.

- Homepage visibly separates editorial areas from Sponsored and Press Release content.
- The site presents reviews, advertisements, and media partnerships as part of its publishing model.

Summary Verdict

The website presents as a legitimate, established, and trustworthy informational media property with no observed scam or impersonation contradiction. Normal interaction, including account login where applicable and standard site use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic terminating on Cloudflare edge servers rather than exposing the origin directly. This provides a meaningful defensive layer against common network abuse, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

- Hosted on AS13335 (Cloudflare, Inc.), United States.
- Observed edge IP: 104.26.9.137.
- TLS certificate issued by WE1 with DV validation, valid to 2026-09-21.

Closing Assessment

Standard browsing and normal account interaction are appropriate; commercial or regulated decisions should remain subject to the specific disclosures and claims presented on the relevant page.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bitcoinworld.co.in.

- The request stayed on bitcoinworld.co.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-06-03. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bitcoinworld.co.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
