

# Is blaxllantas.com safe? TrustSniffer's moderate-trust assessment: 65/100

blaxllantas.com

## Verdict

65

OUT OF 100

MODERATE TRUST

blaxllantas.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Dynamic Interaction Caution

Assessed 2026-09-29 by automated analysis. Classification confidence 50%.

What this site appears to be

Blax Llantas is a Guadalajara-based tire and auto service shop website offering product sales (tires, TPMS sensors), service packages, appointment scheduling and online quotes/checkout. The site includes prices for packages, phone/WhatsApp contact, physical address and a Mercado Pago checkout initiation.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Safe for Read-Only.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Blax Llantas is a Guadalajara-based local automotive service and ecommerce website presenting tire and TPMS sensor sales, vehicle-maintenance packages, appointment scheduling, online quotations, and Mercado Pago checkout, with the apparent business model of combining brick-and-mortar tire services with online retail and lead generation.

Scam/Impersonation Risk

No contradictions were observed across the available website and technical evidence: there is no indication of phishing, brand impersonation, or malicious activity, and the site's stated local automotive-service purpose is consistent with its visible service, pricing, contact, and booking content. The identity of the real-world operator remains independently unverified, so the site should be treated as an apparently genuine local business rather than as an identity-proven entity. The domain is relatively young but has continuous observed presence from its

registration period, which supports ordinary business continuity without independently establishing the operator's identity.

#### EVIDENCE

- Domain registration records show creation on 2024-01-08 and an age of 2.73 years.
- Historical records show 200 archive snapshots spanning 2024–2025, with 2 years tracked.
- The homepage and service pages present consistent tire, TPMS, maintenance, appointment, and local-service content without detected impersonation indicators.

### Regulatory Verification Notes

The site provides business-facing contact and location information and presents a conventional automotive retail and service model. No license or registration number is claimed in the supplied site analysis; for this type of local automotive business, that is a disclosure and verification matter rather than evidence of deception. The independently observed owner record names Jose Alejandro Munoz, but the available evidence does not independently connect that person to the business. No matching third-party broker profile or adverse external reputation signal was identified.

#### EVIDENCE

- The site presents a physical Guadalajara address together with telephone and WhatsApp contact channels.
- The site does not claim a license authority or publish a license number in the analyzed business information.
- Hosted on AS31898, identified as ORACLE-BMC-31898 – Oracle Corporation, US.
- TLS is DV-validated, issued by YR2, and valid to 2026-10-31.

### What to Verify Next

Before a high-value purchase or sensitive submission, the prospective customer should independently confirm that the published physical location and contact channels correspond to the operating business, check applicable local business or consumer-protection registration requirements, and review the final Mercado Pago transaction details, refund terms, and appointment conditions before payment. Confirmation through an independent offline route is preferable where the transaction value or data sensitivity is material.

#### EVIDENCE

- The homepage includes quote-request and appointment-booking functions.
- The site exposes a checkout or payment-initiation workflow through Mercado Pago.
- The analyzed forms include four functions: quotations, appointments, checkout initiation, and event or raffle registration.

### Summary Verdict

The website presents a **moderate-trust, apparently legitimate local-commerce posture** with no observed scam or impersonation contradictions. Its operational content and technical continuity support ordinary browsing and routine consideration, while the unverified operator identity limits confidence for consequential transactions.

## Infrastructure Integrity

The site resolves to Oracle Corporation infrastructure in the United States under AS31898, with no CDN or edge-provider deployment identified. This is a conventional hosting arrangement and provides a stable technical delivery path, but hosting infrastructure alone does not establish business legitimacy.

EVIDENCE

- Infrastructure resolution reports 1 unique IP, 0 edge IPs, and 0 origin candidates.
- The hosting registry is ARIN and the resolved infrastructure country is the US.

## Closing Assessment

Routine browsing is reasonable; independent confirmation of merchant details, transaction terms, and applicable registration requirements should precede high-value purchases or sensitive data submission.

Written analysis generated 2026-09-29 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

1 finding contributed to this verdict, raised by behaviour in a sandbox.

01 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.  
Behaviour in a sandbox rule:BEHAV\_EXTERNAL\_RATIO\_HIGH
- The page sent data to a destination TrustSniffer does not recognise.  
Behaviour in a sandbox rule:BEHAV\_NONWHITELISTED\_POSTS

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of blaxllantas.com.

- The request stayed on blaxllantas.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by hostgator.mx, across 2 name servers. NOTED
- The registration is paid up to 2027-01-08. NOTED
- The earliest public archive of this site is from 2024-01-08. CLEAR

- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about blaxllantas.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
