

Is blazedstore.com safe? TrustSniffer's moderate-trust assessment: 65/100

blazedstore.com

Verdict

65

OUT OF 100

MODERATE TRUST

blazedstore.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Ecommerce landing/homepage for Blazed Lobby, a Turkish brand offering limited-run graphic t-shirts with product listings, prices (in TL), discount mentions, and site navigation (Collections, Lookbook, About, Cart, Shipping & Returns, Privacy, Contact). No evident login or payment forms captured in the provided DOM snippet.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.blazedstore.com/>

What [blazedstore.com](https://www.blazedstore.com/) served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Governance Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2026.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Blazedstore.com presents Blazed Lobby as a Turkish direct-to-consumer apparel brand focused on limited-run graphic T-shirts inspired by music, visual culture, and streetwear, with product listings, discounts, collections, shipping and returns information, privacy information, contact details, and a shopping cart.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing indicators, brand-impersonation finding, malicious reputation hit, or conflicting legal identity. The homepage's content is consistent with an ordinary clothing retailer, and the observed browsing behavior showed no login form, hidden sensitive form, wallet connection, external submission, cloaking, or suspicious script activity. A set of abuse reports relates to a shared CDN address attributed to Vercel, with zero confidence and a whitelisted status; the attribution is

therefore not evidence that Blazed Lobby itself is abusive. The site remains an apparently legitimate but relatively recent commercial presence rather than an independently verified established entity.

EVIDENCE

- The homepage identifies Blazed Lobby and displays three limited-edition graphic T-shirts with Turkish-lira pricing and discount messaging.
- The observed site behavior completed two successful runs with no external XHR or POST activity, no hidden forms, and no wallet or credential-harvesting behavior.
- The domain was registered on 2026-01-27 and is approximately 0.56 years old.
- Historical capture records contain 8 snapshots in 2026, covering 1 year of tracking.

Regulatory Verification Notes

The site provides customer-facing policy navigation, including About, Shipping & Returns, Privacy, and Contact pages, but the supplied page evidence does not independently establish the operator's legal entity. No licensing claim or registration number is presented, which is a transparency and merchant-verification point for an online retailer rather than evidence of impersonation. The available third-party broker dataset contains no name match, while external reputation coverage is partial; neither provides a regulatory approval or licensing determination. The registration record uses GoDaddy.com, LLC, with the registrant listed through Domains By Proxy, LLC, an administrative privacy arrangement that does not itself indicate misconduct.

EVIDENCE

- The site navigation exposes About, Shipping & Returns, Privacy, and Contact pages, while the captured content does not provide a verified legal-entity name or registration number.
- The domain is registered through GoDaddy.com, LLC; the record lists Domains By Proxy, LLC.
- The website is served from AS16509, Amazon.com, Inc., US.
- The transport certificate is issued by YR2 at DV validation level and is valid to 2026-10-05.

What to Verify Next

Before a high-value purchase, the merchant's legal name, applicable Turkish consumer-commerce registration details, delivery obligations, return address, and refund process should be confirmed against the information presented on the About, Contact, and Shipping & Returns pages. Payment should use a method offering transaction dispute or buyer protection, and the checkout should be reviewed for a clear merchant descriptor, total price, delivery terms, and refund conditions. Contact details should also be confirmed through an independent route before any material payment or personal-data exchange.

EVIDENCE

- The homepage provides product names, prices, discount claims, and a cart pathway, making the checkout and merchant descriptor the key transaction-control points.
- Shipping & Returns, Privacy, About, and Contact sections are visibly available for documentary review.
- The captured homepage contains no login or payment form, so the final checkout flow was not represented in the supplied DOM evidence.

Summary Verdict

The website has a **moderate trust posture**: its content and observed behavior are consistent with a conventional apparel e-commerce operation, and no direct scam or impersonation contradiction was identified. Confidence is limited because the real-world operator has not been independently connected to the presented brand.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with observed edge traffic on AS16509 operated by Amazon.com, Inc.; the origin server was not observable in this analysis. This edge architecture reduces direct origin exposure and is a mitigating security control, but it does not independently establish merchant legitimacy.

Closing Assessment

Ordinary browsing is proportionate, while sensitive information and substantial payments should proceed only after the merchant, transaction terms, and payment protections have been confirmed through the available customer-facing documentation and independent contact checks.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

Signals weighed against the site

- AbuseIPDB: 14 reports on hosting IP 216.198.79.65 (Vercel, Inc, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of blazedstore.com.

- The request stayed on blazedstore.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-27. NOTED
- The earliest public archive of this site is from 2026-06-07. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about blazedstore.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
