- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Blog del Contador is an Argentine professional news and information portal covering taxation, labor law, accounting, finance, social security, and legislative developments, supported by subscriber access, newsletters, and related publishing activity.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavior, and reputation signals. The homepage presents substantive professional reporting rather than an investment, deposit, or high-yield solicitation model; it contains no detected phishing indicators, hidden forms, wallet activity, or brand-impersonation signals. The site's established publishing activity and consistent historical presence further support continuity of purpose.

- The homepage identifies "Blog del Contador" and presents Argentine tax, labor, accounting, and economic-news coverage.
- The domain was registered in 2013 (~12.9 years old); 221 archive snapshots span 2020–2026, covering 7 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site's stated function is professional information publishing, not regulated financial intermediation. Its newsletter and subscriber-access forms do not request sensitive information, and no licensing representation is made on the reviewed pages; this is a transparency point for any paid service or formal corporate relationship, not evidence of deception. The named registrant is FELICE MARCOS ARIEL, and the domain is registered through nicar.

- The homepage categorizes content under taxation, labor and social security, provincial matters, and accounting.
- The site contains two newsletter-subscription forms and no detected sensitive-data form.
- Hosted on AS13335 (Cloudflare, Inc., US); TLS certificate issued by WE1 (DV), valid to 2026-10-25.

What to Verify Next

For a formal commercial engagement, confirm the applicable publisher, subscription, and invoicing details through the site's own legal or contact information and independently confirm any claimed business registration

where required. Standard account login and ordinary site use are appropriate within the service presented.

- The homepage provides subscriber-access functionality and newsletter subscription.
- The reviewed content describes informational publishing rather than deposits, investments, or financial-return products.

Summary Verdict

Blog del Contador presents as a legitimate, established, low-risk professional information service. Its content quality, operational consistency, clean reputation, and sustained domain presence support normal interaction with confidence.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, which mitigates direct exposure of the underlying hosting environment. The observed infrastructure is therefore a protective control, although CDN protection alone is not proof of legitimacy.

- Four observed IP addresses were identified as CDN edge addresses, with no origin candidate observed.
- Cloudflare was detected as the website's CDN/WAF provider.

Closing Assessment

Normal browsing, account login, newsletter subscription, and standard subscriber actions are appropriate; any material business engagement should follow the organisation's ordinary procurement and verification controls.

- The site's observed interaction surface was limited to informational content and newsletter subscription.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of blogdelcontador.com.ar.

- The request stayed on blogdelcontador.com.ar. It was not redirected to another domain. CLEAR

About this assessment

A trust score summarises the evidence TrustSniffer could collect about blogdelcontador.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
