- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Blog do BG is a Portuguese-language Brazilian news website presenting reporting and opinion on politics, elections, public safety, justice, government policy, and regional events, particularly in Rio Grande do Norte, with an apparent advertising-, audience-engagement-, and sponsorship-supported publishing model.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents substantial dated journalism with named authors, recurring regional and national coverage, social-media references, reader comments, and no login, payment, investment, cryptocurrency, phishing, impersonation, or malware indicators. The observed content is consistent with an established news operation rather than a deceptive service.

- Domain registration: 2011-03-24; approximately 15.37 years old.
- Web archive: 870 snapshots spanning 2011–2026, with 16 years tracked.
- Homepage behavior showed no hidden forms, password-exfiltration forms, cloaking, wallet activity, or suspicious inline scripts.

Regulatory Verification Notes

The site functions as a news and opinion publisher, not as an evident financial or investment service; consequently, no financial licensing claim is expected from the supplied content. The privacy-policy link, author attribution, dated articles, and editorial subject matter provide ordinary publishing transparency, while the absence of a demonstrated third-party regulatory relationship is a contextual limitation rather than evidence of wrongdoing. No adverse broker-reputation match was identified.

- Homepage content: 35,651 characters covering seven identifiable editorial topic areas.
- Homepage social references point to YouTube and Instagram, and the site provides a standard comment form rather than a sensitive transaction form.
- Hosting: AS13335, Cloudflare.
- TLS certificate: issued by WE1, domain-validated (DV), valid through 2026-09-28.

What to Verify Next

For reliance on individual reports, confirm material claims against primary governmental, electoral, judicial, or public-safety sources. For formal business engagement, independently confirm the publisher's current editorial and contact details through an established external channel.

- The homepage identifies articles by publication date and author.
- The site includes a privacy-policy page and a standard reader-comment workflow.
- The apparent business model is publishing, audience engagement, advertising, and possible sponsorship; no paid financial service is evidenced.

Summary Verdict

The website presents as a legitimate, established, and trustworthy news publisher with a coherent editorial identity and no observed scam or impersonation indicators. Normal browsing, account login where offered, commenting, and standard site interaction are appropriate.

Infrastructure Integrity

Cloudflare provides the site’s CDN/WAF protection, and the observed addresses are CDN edge servers rather than an exposed origin. This reduces direct origin exposure and is a mitigating infrastructure characteristic, though it is not independently proof of legitimacy.

Closing Assessment

Normal editorial use is appropriate; material factual reliance should remain subject to ordinary source corroboration appropriate for news content.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of blogdobg.com.br.

- The request stayed on blogdobg.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2030-03-24. CLEAR
- The earliest public archive of this site is from 2011-04-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about blogdobg.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
