

Is blom.fi safe? TrustSniffer's low-trust assessment: 40/100

blom.fi

Verdict

40

OUT OF 100

LOW TRUST

blom.fi is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Small Finnish corporate site for blomIT offering property management and IT services. Contains contact details and links to simple forms (change-of-work, moving notice) but no visible payment or login flows.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://blom.fi/>

What blom.fi served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

blom.fi presents blomIT as a small Finnish business providing property-management (“isännöinti”) and IT services, with an informational homepage, contact details, and simple resident-service forms rather than an online financial or trading platform.

Scam/Impersonation Risk

A **confirmed external blacklist listing** is the decisive adverse signal and creates a material risk for sensitive interaction, even though the visible homepage is consistent with a small corporate site and shows no login, payment, credential-harvesting, or overt impersonation mechanism. The available evidence does not establish that the site is impersonating a named brand, and no page-level phishing indicators were observed; however, the blacklist contradiction cannot be offset by the site’s otherwise benign presentation. No suspicious contact-email anomaly was identified in the supplied page findings.

EVIDENCE

- The homepage identifies “blomIT,” property management, and IT services, with no visible login or payment flow.
- The homepage provides links to “Lähetä viesti,” “Muutostyölomake,” and “Muuttoilmoitus,” rather than sensitive financial interaction features.
- External reputation data records a confirmed blacklist hit and additional malicious or suspicious detections.
- Domain registration records show creation on 2003-10-02 and an age of 22.9 years; archival analysis records 45 snapshots spanning 2003–2026, with 24 years tracked.

Regulatory Verification Notes

The homepage footer names “blomIT Ky” and presents a Finnish address and local telephone contact, but the supplied evidence does not independently verify that legal identity. The site describes property management and IT support and does not claim a regulatory license; the on-page disclosure state is therefore unclear rather than a regulatory finding in itself. Any decision to engage should distinguish the site’s apparent business description from independently confirmed corporate status, authority to provide services, and applicable Finnish registration or licensing requirements. The domain is registered through Planeetta Internet Oy, but registration infrastructure does not prove the operator’s identity.

EVIDENCE

- Homepage footer: “© 2015. blomIT Ky. Kaikki oikeudet pidätetään.”
- Homepage contact block: Kauraslaaksontie 2, 33470 Ylöjärvi, Finland, with a telephone contact and business email displayed.
- The site’s hosting resolves through AS58003, PLANEETTA-AS - Planeetta Internet Oy, FI.
- The site uses a DV TLS certificate issued by YR2, valid to 2026-11-11.

What to Verify Next

Independently confirm that “blomIT Ky” is the current legal operator using the relevant Finnish business registry and compare the registered address with the address published on the homepage. Confirm the official contact channels through an independently obtained source before sending personal, tenancy, property, or account information. If the engagement involves property-management obligations, obtain the applicable contract, service terms, complaint route, and payment instructions through an authenticated offline channel. Any external reputation warning should also be reviewed with the organization’s security or procurement function before sensitive interaction.

EVIDENCE

- Homepage: legal name, address, telephone contact, and service description are available for independent comparison.
- Homepage forms: the listed change-of-work and moving-notice functions identify the types of resident information that may be submitted.
- Homepage content is minimal, with no visible licensing statement or detailed service terms to support independent verification.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site's ordinary corporate presentation and stable technical operation do not overcome the confirmed external reputation contradiction, and the real-world operator remains unverified. Routine non-sensitive viewing is distinguishable from login, credential, or financial activity, for which the available evidence does not support approval.

Infrastructure Integrity

The site is hosted directly on Planeetta Internet Oy infrastructure in Finland through AS58003, with two resolved IP addresses and no detected CDN or WAF edge layer. The transport connection is protected by a valid DV certificate issued by YR2, but this encryption provides channel protection only and is not evidence of operator legitimacy.

Closing Assessment

Until independent identity and reputation checks are resolved, prospective users should restrict activity to non-sensitive viewing and route any necessary business engagement through independently confirmed channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of blom.fi.

- The request stayed on blom.fi. It was not redirected to another domain. CLEAR
- Registration is published under Planeetta Internet Oy. CLEAR
- DNS for this domain is served by hostingpalvelu.fi, across 2 name servers. NOTED
- The registration is paid up to 2029-10-02. CLEAR
- The earliest public archive of this site is from 2003-10-05. CLEAR
- It is hosted on PLANEETTA-AS, from a server in FI. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about blom.fi at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
