## The page as captured

<https://bmsayfoundation.org/>

What bmsayfoundation.org served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

## Full analysis

### Overview

bmsayfoundation.org presents itself as the bmSAY Foundation, an informational philanthropic website focused on corporate partnerships, skills training, enterprise support, volunteering, and poverty alleviation. Its apparent operating model is donation- and engagement-oriented rather than based on financial products or promised investment returns.

### Scam/Impersonation Risk

No confirmed contradictions were observed: the available evidence shows no phishing, impersonation, malicious-content, or blacklist finding, and the site's homepage presents a consistent charity/foundation purpose. A reputational signal exists at the shared network level: 50 abuse reports were associated with the observed IP, but the attribution identifies that address as shared content-delivery infrastructure rather than as a site-specific finding. This is a soft infrastructure-related signal, not evidence that bmSAY Foundation itself is malicious. The domain has an established registration history, while independent identity verification remains incomplete.

#### EVIDENCE

- The homepage identifies “bmSAY Foundation” and describes philanthropic efforts involving corporate engagement, skills training, enterprise support, and poverty alleviation.
- No login form, hidden form, wallet-connection function, sensitive form, cloaking, clipboard manipulation, or wallet-drainer behavior was observed during site interaction.
- The observed IP, 185.158.133.1, has 50 abuse reports attributed to shared infrastructure operated by Internet Utilities Europe and Asia Limited.
- The domain was registered on 2020-07-29 and is approximately 6.07 years old.

#### Regulatory Verification Notes

The site’s stated charitable purpose is apparent from the homepage and its navigation to The Foundation, Get Involved, Blogs, In News, and Contact. However, the available pages do not establish the real-world legal identity of the operator, charitable registration, or any applicable authorization; no license or registration number is claimed. This is a transparency and verification gap rather than evidence of a scam. The site also has limited formal publication metadata, including no detected structured data or meta description, which reduces the amount of independently machine-verifiable organizational context. A low page-authority signal and the absence of a matched broker-reputation record provide contextual information only and do not determine legal status.

#### EVIDENCE

- The homepage title is “Home | bmSAY Foundation,” with navigation to The Foundation, Get Involved, Blogs, In News, and Contact.
- The homepage copyright notice states “2025 © COPYRIGHTS bmSAY FOUNDATION.”
- The domain registrar is GoDaddy.com, LLC; registration expires on 2027-07-29.
- The site is hosted on AS13335, Cloudflare, Inc.; its TLS certificate is issued by WE1 at DV validation level and is valid until 2026-10-20.

#### What to Verify Next

Before donations, formal partnerships, or other sensitive commitments, the foundation’s legal name and charitable status should be confirmed through the relevant government or charitable registry for its operating jurisdiction. Donation instructions, beneficiary details, and any partnership proposal should be cross-checked through independently sourced contact channels, and the Contact and About-related pages should be reviewed for accountable officers, a physical operating address, governing documents, and a clear use-of-funds policy. Payment methods should provide appropriate transaction records and protections.

#### EVIDENCE

- The homepage directs visitors toward corporate partnership and philanthropic engagement.
- The site exposes Contact and Get Involved navigation points but the available analysis does not independently verify the operator behind them.
- The stated activities concern skills training, enterprise support, and poverty alleviation rather than financial returns.

Summary Verdict

The website has a **moderate-trust posture** and is consistent with an informational nonprofit or foundation site, with no observed indicators of active scam or impersonation. Its principal limitation is that the available evidence does not independently connect the online presence to a verified real-world organization, so legitimacy is apparent and evidence-consistent rather than proven.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure, with the observed edge address served through AS13335; the origin server was not observable. This architecture reduces direct origin exposure and is a mitigating security measure, but it does not independently establish the operator's legitimacy.

Closing Assessment

Ordinary informational browsing is proportionate, while donations, partnership commitments, and other sensitive or high-value actions should follow independent organizational, payment, and authorization checks.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.  
Registration and ownership rule:KF\_WHOIS\_INCOMPLETE

02 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.  
Behaviour in a sandbox rule:BEHAV\_EXTERNAL\_RATIO\_HIGH

Signals weighed against the site

- AbuseIPDB: 50 reports on hosting IP 185.158.133.1 (Internet Utilities Europe and Asia Limited, Content Delivery Network), 45% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of bmsayfoundation.org.

- The request stayed on bmsayfoundation.org. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-29. NOTED
- The earliest public archive of this site is from 2023-08-21. CLEAR
- It is hosted on CLOUDFLARENET, from a server in AE. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about bmsayfoundation.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
