Full analysis

Overview

Bohar Naadi Astrological Center is a local informational and service-booking website in Vaitheeswaran Koil that presents Nadi astrology history, reading procedures, Siddhas, testimonials, gallery material, and contact routes for paid consultations and related readings.

Scam/Impersonation Risk

No contradictions were observed. The site presents a consistent local-service identity, with no detected brand impersonation, phishing indicators, malicious external reputation signal, login form, sensitive-data form, cryptocurrency feature, wallet connection, or other page-level fraud indicator. Its observable behavior was also assessed as benign, including no cloaking, hidden forms, wallet activity, clipboard manipulation, or suspicious inline scripts. These signals support a "not scam" conclusion, while the independently verified real-world operator identity remains unresolved.

EVIDENCE

- The homepage identifies Bohar Naadi Astrological Center and describes Nadi astrology services, procedures, history, testimonials, and local contact details.
- The site's behavioral inspection recorded 2 successful runs, 0 hidden forms, 0 wallet-provider detections, 0 wallet-sensitive runs, and 0 suspicious inline scripts.
- The registration record dates the domain to 2023-06-25, with an age of approximately 3.16 years.
- Historical records contain 32 snapshots spanning 2017–2026, with 10 years tracked and no detected suspicious repurposing or semantic drift.

Regulatory Verification Notes

The About and Contact content provides a named service center, a Vaitheeswaran Koil location, telephone contact, and a service description, but the available material does not state a licensing authority or registration number. For an astrology consultation business, this is a disclosure and consumer-protection verification point rather than evidence of deception. The operator's identity is therefore **apparent but not independently verified**. External reputation coverage contained no reported abuse activity or blacklist finding in the supplied results, although coverage was partial and should not be treated as a regulatory determination.

EVIDENCE

- The About Us and Contact content identifies the business as Bohar Naadi Astrological Center and supplies a physical location and telephone contact.
- No license authority or license number is presented in the available business-model and page-disclosure records.
- The site is served from AS24940, HETZNER-AS—Hetzner Online GmbH, Germany.
- The site has a valid DV TLS certificate issued by YR2, valid to 2026-09-26T03:55:52+00:00.

What to Verify Next

Before a substantial payment or other sensitive transaction, independently confirm that the named service center, booking recipient, cancellation terms, and payment destination correspond to the same real-world business. Where applicable, licensing or local business-registration requirements should be checked against the relevant official registry, and contact details should be confirmed through an independent offline route.

EVIDENCE

- The Contact page is the appropriate source for independently checking the displayed business location and telephone details.
- The appointment-based service model makes confirmation of the payment recipient and cancellation arrangements material before committing funds.
- Any applicable local registration or consumer-protection status should be checked through the relevant official authority rather than inferred from the website alone.

Summary Verdict

The website has a **moderate-trust posture**: its content, behavior, technical configuration, and available reputation signals are consistent with a genuine local service website, and no scam or impersonation contradiction was observed. Confidence remains measured because the real-world operator has not been independently established and the site’s regulatory disclosures are unclear.

Infrastructure Integrity

CDN/WAF protection provides a useful mitigating layer against direct exposure of the hosting environment, and the analysis observed only CDN edge infrastructure rather than an independently attributable origin server. This protection supports resilience and reduces some exposure risk, but it is not proof of business legitimacy.

Closing Assessment

Ordinary browsing and low-value inquiry are proportionate, while independent identity, payment, and applicable regulatory checks should precede high-value or sensitive engagement.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Dynamic Interaction Caution

- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE

Identity verification

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boharnaadi.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
