Full analysis

Overview

Borough Market's website is the official online presence for London's historic food market, presenting its traders, visitor information, recipes, events, tours, educational work, charitable mission, newsletter, and online shopping services.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent Borough Market identity, ordinary food-market activity, and a charitable-trust purpose, with no phishing, impersonation, malicious-content, or suspicious-form indicators. Its strong public footprint and long-established domain materially support the conclusion that this is a legitimate website.

- The homepage identifies Borough Market and covers food traders, visiting London, recipes, education, events, tours, and charitable activity.
- External reputation checks recorded zero malicious or suspicious detections, zero abuse reports, and no blacklist match.
- The domain was registered through CloudFloorDNS LLC [Tag = MICROTECH] on 1999-11-17 and is approximately 26.73 years old.
- The homepage's only detected form was a newsletter signup; no sensitive form or external password form was identified.

Regulatory Verification Notes

The site's apparent business model concerns market operations, visitor activity, food traders, events, tours, and related commercial services rather than a regulated financial service. The supplied content does not evidence a financial licensing claim, which is consistent with that model; any formal entity or charitable-status confirmation should be obtained from the relevant official register if required for a specific engagement. No adverse third-party broker association was identified.

- The homepage describes Borough Market's charitable trust mission and market-related services.
- The site presents a clear physical-market identity, contact details, policies, and ordinary informational content.
- Hosting is through AS13335, operated by CLOUDFLARENET - Cloudflare, Inc., US.
- TLS uses issuer WE1 with DV validation and is valid through 2026-10-21.

What to Verify Next

For routine use, no exceptional restriction is indicated. Where institutional onboarding or material payments are involved, the counterparty’s legal or charitable status can be confirmed independently through the applicable public register, and event, trading, or payment details can be cross-checked through an offline venue contact.

- The site promotes visitor services, events, tours, newsletters, and online shopping.
- The homepage contains no sensitive submission form beyond newsletter registration.
- The domain’s stated registration expiry is 2029-11-17.

Summary Verdict

The website presents as a legitimate, established, and trustworthy public-market organisation with a coherent identity, clean reputation, and mature operating profile. Normal interaction, including account login where offered and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN and WAF protection front the site, and all observed addresses were CDN edge servers under AS13335; no origin candidates were identified in the supplied network view. This provides a protective infrastructure layer but is a mitigating control rather than proof of legitimacy.

Closing Assessment

Standard browsing, registration, and ordinary transactions may proceed normally, subject to routine organisational controls for material payments or formal engagements.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boroughmarket.org.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
