

Is boscodelhi.org legit? TrustSniffer's high-trust assessment: 95/100

boscodelhi.org

Verdict

95

OUT OF 100

HIGH TRUST

boscodelhi.org appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

BOSCO Delhi website for a nonprofit organization providing project descriptions (education, medical, refugee support), calls for donations and volunteers, contact details, annual reports and newsletter signup. No evidence of financial-investment or crypto activity; appears informational and donor-facing.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

BOSCO Delhi is an informational nonprofit website for a development organization presenting education, medical, refugee-support, women's empowerment, community-development, and related projects, while inviting donations, volunteers, sponsorships, and newsletter subscriptions to support its apparent charitable model.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence contains no phishing, impersonation, blacklist, malicious-behaviour, or brand-conflict indicators. The homepage presents a coherent charity/nonprofit purpose, with project descriptions, donation and volunteer calls, contact details, annual reports, and finance-related content rather than investment, cryptocurrency, or other abuse-prone offerings. Interactive testing also found no login form, sensitive submission form, wallet connection, hidden form, suspicious script, or external posting activity. The site therefore appears consistent with an established nonprofit presence, although that appearance does not independently prove the real-world operator's identity.

EVIDENCE

- The homepage identifies BOSCO Delhi and presents sponsorship, refugee/migrant, education, medical, women's empowerment, and community-development projects, together with donation and volunteer calls.
- Homepage interaction showed one newsletter-signup form and no login form, sensitive form, hidden form, wallet activity, or external POST activity.
- Domain registration evidence records creation on 2018-10-28, with an age of 7.82 years; the registrar is PDR Ltd. d/b/a PublicDomainRegistry.com.
- Historical web records contain 45 snapshots spanning 2009–2026, with 18 years tracked.

Regulatory Verification Notes

The site provides useful donor-facing transparency artifacts, including contact information, annual reports, newsletters, a finance section, and an "Our Partners" area. However, the supplied pages do not establish an independently verified legal operator, nonprofit registration, or applicable donation authorization; this is a verification gap rather than evidence of a scam. The business model is charitable and donation-funded, so the relevant review is confirmation of the beneficiary's legal status and payment arrangements rather than financial-services licensing. External reputation checks were clean where evaluated, and a separate broker-reputation cross-check produced no match, but neither signal constitutes a legal or regulatory determination.

EVIDENCE

- The "Publications," "Annual Reports," "Finance," "Contact," and "Donate" areas are present in the site navigation and page content.
- The "Who we are" content describes BOSCO Delhi as a development organization of the Salesian Pro...; the supplied material does not provide a complete independently verified legal-entity record.
- The site's hosting telemetry identifies AS26496, operated by GoDaddy.com, LLC, US.
- The site uses a valid DV TLS certificate issued by YR1, valid to 2026-10-30T11:44:40+00:00.

What to Verify Next

Before a donation or other payment interaction, an independent check should confirm the beneficiary's legal registration and that the payment destination is controlled by that beneficiary. The annual reports and finance materials should be reconciled with the intended donation purpose, and any claimed partner or CSR relationship should be confirmed through an independently obtained channel. Contact details should also be validated through an offline or independently sourced route before sensitive information or payment details are exchanged.

EVIDENCE

- The “Contact” page provides a telephone number and an email address for independent channel validation.
- The “Annual Reports” and “Finance” sections provide documents or information that can be compared with the proposed donation purpose.
- The “Our Partners” and “CSR” areas identify relationships that can be confirmed through separate official sources.
- The “Donate” page is the relevant point at which the beneficiary and payment destination should be checked before transaction completion.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated informational and charitable purpose. No scam or impersonation contradictions were identified, while independent confirmation of the real-world operator remains appropriate because identity verification is not conclusive.

Infrastructure Integrity

The website is protected by a CDN/WAF layer, and the observed address is an edge address rather than an exposed origin candidate. This reduces direct origin exposure and is a mitigating infrastructure signal, but protective hosting alone is not proof of organizational legitimacy.

EVIDENCE

- The observed edge address is 68.178.172.137 on AS26496, associated with GoDaddy.com, LLC, US.
- Infrastructure resolution identified one edge IP, no likely origin candidates, and a CDN/WAF-protected configuration.

Closing Assessment

Normal browsing and ordinary charitable due diligence are proportionate to the available evidence; payment or credential interactions should follow independent beneficiary, payment-protection, and transaction-record checks.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of boscodelhi.org.

- The request stayed on boscodelhi.org. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by orderbox-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2026-10-28. NOTED
- The earliest public archive of this site is from 2009-08-21. CLEAR
- It is hosted on AS-26496-GO-DADDY-COM-LLC, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boscodelhi.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
