Full analysis

Overview

This website is the public-facing homepage of BoursoBank, presenting an established online-banking business model centered on digital banking, payments, savings, investment, credit, insurance, and related financial services.

Scam/Impersonation Risk

No contradictions were observed across the supplied identity, content, behavioral, and reputation evidence. The homepage clearly presents BoursoBank as an online bank, with no detected phishing, brand-impersonation, malicious, or blacklist indicators. The observed inline scripts did not lead to hidden forms, credential exfiltration, cloaking, wallet-draining behavior, or untrusted destinations.

EVIDENCE

- The homepage identifies the service as “BoursoBank (ex-Boursorama Banque)” and describes online banking services.
- The domain was registered on 2005-11-23 and is approximately 20.7 years old.
- Historical coverage records 555 archive snapshots from 2023-10-04 through 2026-08-01, spanning 4 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The homepage describes accounts, cards, savings, investments, brokerage, loans, insurance, business banking, mobile services, cashback, and referral offerings. Its business model is consistent with mainstream online financial services, monetized through fees, interest margins, commissions, and partner services. The supplied content does not establish a specific licensing authority or registration number, so regulatory status remains a documentation point for independent confirmation rather than an indication of deception.

EVIDENCE

- Hosting resolves through AS20675, identified as BOURSORAMA S.A. in France.
- The TLS certificate uses DV validation, was issued by YR2, and is valid through 2026-09-02.
- The site's page analysis classified the business model as established and legitimate, with no content red flags.
- No matching third-party broker profile was identified.

What to Verify Next

Confirm the operating entity and applicable authorization through the relevant financial-services registry, using the site's legal and regulatory disclosures as the starting reference. Standard account onboarding and service use may proceed through the site's normal channels.

EVIDENCE

- The homepage provides a substantial description of banking, payment, lending, investment, and insurance services.
- The supplied page behavior showed no sensitive form, hidden form, or untrusted submission destination.
- The site presents separate navigation for personal, professional, youth, private-banking, and business audiences.

Summary Verdict

The website presents a high-trust, established posture supported by converging identity, historical, technical, behavioral, and external-reputation evidence. No scam, impersonation, phishing, or other contradictory signal was identified.

Infrastructure Integrity

The site is hosted directly on AS20675 by BOURSORAMA S.A. in France, with no CDN or WAF edge detected. This provides a straightforward hosting attribution, while the valid DV TLS certificate supports transport security.

Closing Assessment

Normal interaction, including account login and standard account use, is appropriate.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boursobank.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
