Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Box World is a local Danish self-storage and trailer-rental business serving private and commercial customers near Viborg and Silkeborg. Its website presents depotrum in multiple sizes, seasonal vehicle storage, trailer rental, access arrangements, security measures, pricing information, and contact details, with revenue apparently derived from storage-unit and related rental services.

Scam/Impersonation Risk

No scam, phishing, impersonation, blacklist, or conflicting-identity contradictions were observed. The homepage describes a conventional local storage business, provides service-specific information and contact details, and does not present cryptocurrency, investment, gambling, credential-harvesting, or other high-risk abuse patterns. The site also showed no login form, hidden sensitive form, external password form, wallet connection, cloaking, or clipboard-manipulation behavior. Available evidence is therefore consistent with an established, apparently legitimate local business, although the real-world operator identity is not independently verified.

EVIDENCE

- The homepage identifies storage-unit rental near Viborg and Silkeborg, including depotrum, trailer rental, and vehicle winter storage, with no content red flags.
- The observed page behavior recorded 0 hidden forms, 0 password external forms, 0 wallet-connect runs, 0 wallet-sensitive runs, and 0 wallet-drainer runs.
- Domain registration records show registration on 2019-09-17 and an age of 6.93 years; the domain is registered through Simply.com A/S.
- Web-archive evidence records 52 snapshots across 8 years, from 2019-10-21 through 2026-06-10, with no detected suspicious repurposing or semantic drift.

Regulatory Verification Notes

The website represents a local commercial storage service rather than a site claiming to provide regulated financial services. No license or registration number is claimed in the supplied business information, so licensing is not a relevant basis for treating the site as deceptive, but the legal and commercial disclosure position should be confirmed before a contractual or payment commitment. The site presents a phone number, physical address, service locations, access hours, security features, and a cancellation policy, which provides useful commercial context. Independent identity verification remains incomplete, and the available broker context contains no match; this is contextual reputation information, not a licensing determination.

EVIDENCE

- The homepage describes commercial and private storage rental, pricing of 2.50 kr per square metre per day, trailer rental, and seasonal vehicle storage.
- The site content map identifies a cancellation policy, contact details, physical address, security features, and access hours of 06:00–22:00.
- The site's hosting infrastructure is AS48854, team-blue-denmark – team.blue Denmark A/S, DK.
- The site uses a valid DV TLS certificate issued by YR2, valid through 2026-11-15.

What to Verify Next

Before entering into a storage agreement, the prospective customer should independently confirm the business name, premises, and payment recipient using the contact details and physical address published on the site. The cancellation terms, liability for stored property, access conditions, insurance position, and any deposit or recurring-payment arrangements should be reviewed in the applicable contract or booking documentation. For any payment interaction, ordinary payment-protection controls should be used and the merchant identity on the invoice or payment page should match the independently confirmed business details.

EVIDENCE

- The homepage supplies a published telephone contact, physical address, service locations, and booking-related navigation.
- The site content identifies a cancellation policy and separate storage, trailer, and vehicle-storage services for commercial review.
- The transport layer presents a valid domain-validated certificate through 2026-11-15.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate website. No contradictory abuse or impersonation signals were identified, but the operator’s real-world identity has not been independently verified.

Infrastructure Integrity

The site resolves directly to hosting provided by team-blue Denmark A/S in Denmark, with no CDN or WAF detected and one identified hosting IP. This is ordinary infrastructure for a local business and does not itself establish legitimacy; the valid encrypted transport connection is the principal technical protection observed.

EVIDENCE

- Hosted on AS48854, team-blue-denmark – team.blue Denmark A/S, DK.
- Resolved infrastructure recorded 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- TLS validation level is DV; issuer is YR2; certificate validity ends 2026-11-15.

Closing Assessment

Normal browsing and ordinary commercial evaluation are proportionate to the available evidence. Account or payment interactions should proceed only after the independent merchant-identity, contractual, and payment-protection checks described above have been completed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of boxworld.dk.

- The request stayed on boxworld.dk. It was not redirected to another domain. CLEAR
- Registration is published under Simply.com A/S. CLEAR
- DNS for this domain is served by simply.com, across 4 name servers. NOTED
- The registration is paid up to 2026-09-30. NOTED
- The earliest public archive of this site is from 2019-10-21. CLEAR
- It is hosted on team-blue-denmark, from a server in DK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boxworld.dk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
