

Is boyfriendtv.in legit? TrustSniffer's high-trust assessment: 75/100

boyfriendtv.in

Verdict

75

OUT OF 100

HIGH TRUST

boyfriendtv.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 70%.

What this site appears to be

BoyFriendTV is an established adult-content portal featuring free gay pornography, creator uploads, profiles, galleries, live webcam models, community features, premium access, and multilingual navigation. The page includes an 18+ age gate, cookie controls, login and registration options, support and abuse reporting, and links to privacy, DMCA, DSA, terms, and creator policies.

Key findings

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

BoyFriendTV is an established adult-entertainment and user-generated-content platform offering free videos and galleries, creator profiles and uploads, live webcam services, community features, premium access, and multilingual navigation, with revenue apparently derived from advertising, paid content, live-cam activity, and creator-related services.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, deceptive financial claims, or malicious reputation findings were observed. The login and registration functionality remained within the site, with no hidden forms or external password submission detected. Its historical footprint, established traffic presence, and clean threat-reputation results collectively support the assessment that this is the intended operating website rather than an imitation or transient fraud property.

- The homepage presented a coherent adult-video service with creator uploads, profiles, galleries, premium access, live-cam models, an age gate, and community functions.
- The domain history contains 91 archive snapshots spanning 2021–2026, representing 6 years tracked, with no detected repurposing or semantic drift.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, and no reported abuse against the assessed delivery address.
- The site held global traffic rank 59,752, placing it within the top one million domains.

Regulatory Verification Notes

The available pages indicate an operational legal and moderation framework through links to terms and conditions, privacy, cookie, DMCA, DSA, creator-program, support, abuse-reporting, and impressum materials. The supplied evidence does not establish the substantive contents of those documents or identify a claimed sector-specific licence; for this adult-content business model, that is a disclosure-verification matter rather than evidence of impersonation or fraud. Registration records associate the domain with Razorblade Limited through Namecheap, providing a concrete organizational reference.

- Domain-registration records identify NAMECHEAP INC as registrar and Razorblade Limited as the registrant organization; registered 2023-09-20 (~2.87 years old), with expiry on 2027-09-20.
- The homepage links to dedicated terms-and-conditions, privacy-policy, cookie-policy, DMCA, DSA, creator-program, impressum, contact-support, and abuse-reporting resources.

- The site's transport encryption uses a DV TLS certificate issued by YE1, valid until 2026-10-25.
- No broker-profile match or on-page licence claim was identified in the supplied evidence; neither result constitutes an adverse legal determination.

What to Verify Next

Institutional due diligence should review the linked legal documents for the contracting entity, governing law, payment and cancellation terms, age-assurance controls, creator verification, consent and takedown procedures, and data-retention practices. Prospective paid users or creators should independently confirm the official contact channel and payment descriptor, while privacy teams should assess whether personalized advertising and analytics practices meet applicable organizational requirements.

- The homepage provides account registration, login, content-upload, premium-access, and creator-program pathways, making contractual and data-handling terms operationally relevant.
- The observed form had no untrusted submission destination, and no hidden sensitive form or external password form was detected.
- The homepage disclosed personalized advertising and presented cookie-preference controls.
- The observed page incorporated one analytics service and one advertising network, supporting a targeted privacy review.

Summary Verdict

The website is legitimate, established, and trustworthy, with convergent identity, historical, operational, behavioral, and reputation evidence and no observed contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare provides the site's CDN and WAF layer, and all observed addresses were Cloudflare edge nodes rather than exposed origin infrastructure. This is a conventional protective configuration that mitigates direct origin exposure but is not, by itself, proof of legitimacy.

- The hosting infrastructure is served from AS13335 (Cloudflare, Inc., US).
- Four resolved addresses were identified as Cloudflare edge nodes; no origin candidate was exposed during the assessment.

Closing Assessment

Standard use may proceed, with ordinary privacy, contractual, and payment due diligence appropriate to an adult-content platform.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100

Identity verification confidence	74%
----------------------------------	-----

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of boyfriendstv.in.

- The request stayed on boyfriendstv.in. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-09-20. NOTED
- The earliest public archive of this site is from 2021-11-27. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about boyfriendstv.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
