

Is brasillista.com.br a scam? TrustSniffer's high-risk assessment: 0/100

brasillista.com.br

Verdict

0

OUT OF 100

CRITICAL RISK

brasillista.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

WHAT THIS SITE APPEARS TO BE

Portuguese-language site for 'Grafica Tempo' offering products and services with regional selection and contact info; shows developer credit 'Senhorini Host'. No forms or financial flows evident in provided DOM.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://brasillista.com.br/>

What brasillista.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

brasillista.com.br presents a Portuguese-language local-business website branded “GRAFICA TEMPO – GETEP – PRODUTOS E SERVIÇOS,” offering printing and graphic-service information with regional selection and contact details; its apparent business model is direct service orders or client contracts rather than online financial activity.

Scam/Impersonation Risk

No identity contradiction, brand-impersonation indicator, or phishing form was observed in the supplied page content. However, the domain is subject to a confirmed blacklist finding, with malicious detections reported by multiple security providers, including Fortinet, Kaspersky, and Sophos. This external threat evidence materially outweighs the otherwise benign presentation of the homepage and supports a critical risk posture for sensitive interaction. The site’s limited content, developer credit, and absence of login, payment, or financial forms do not explain or neutralize the external detections. No suspicious contact-email anomaly was identified in the supplied evidence.

EVIDENCE

- The homepage presents “GRAFICA TEMPO – GETEP – PRODUTOS E SERVIÇOS,” regional selection, contact information, and a “Senhorini Host” developer credit; no login or sensitive form was detected.
- External reputation assessment recorded 11 malicious detections and 1 suspicious detection from 17 evaluated results, with Fortinet, Kaspersky, and Sophos among the flagged providers.
- The domain was recorded as blacklisted by two external sources; Google Safe Browsing was reported as non-malicious.

Regulatory Verification Notes

The visible site content supports an apparent local printing-service identity, but independent connection to the real-world operator remains unverified. The homepage does not present a licensing or regulatory claim, which is not inherently anomalous for a printing-services business; the relevant verification point is whether the business identity, contracting entity, and service terms can be independently confirmed. The supplied broker-reputation dataset contained no matching result and therefore provides no adverse broker-specific signal.

EVIDENCE

- Domain registration: 2015-03-02; approximately 11.48 years old; expiry recorded as 2027-03-02.
- Archive coverage records first observation on 2009-01-22 and last observation on 2025-12-11, spanning 17 years tracked.
- Hosted on AS53107 (EVEO S.A., BR); the recorded hosting country is US and the registry is RIPE NCC.
- TLS certificate issued by YR2 with DV validation, valid to 2026-10-11.

What to Verify Next

Before any sensitive engagement, an organization should independently confirm that “Grafica Tempo” and “GETEP” correspond to the contracting business, validate contact channels through an offline or independently sourced route, and obtain written service, payment, delivery, and refund terms. Security teams should also resolve the external blacklist finding through their own incident-response and reputation-review process before permitting credentials, financial information, or business-system access.

EVIDENCE

- The homepage supplies business and contact presentation but only 143 characters of captured DOM text and no visible legal, contractual, or licensing detail.
- The site contains no forms, external form destinations, wallet connection behavior, or observed financial flow in the supplied interaction results.
- The published owner record is “Getep Gráfica e Editora Tempo Ltda,” while the visible brand is “GRAFICA TEMPO – GETEP”; the relationship should be independently confirmed rather than treated as proof of identity.

Summary Verdict

The overall posture is **critical trust risk**, driven by confirmed external threat and blacklist evidence despite a superficially ordinary local-business presentation. The operator’s real-world identity is not independently verified, and the available evidence does not support treating the website as suitable for sensitive interaction.

Infrastructure Integrity

The site has no detected CDN or WAF and resolves to one likely origin address, 143.14.244.16, hosted by AS53107 – EVEO S.A., BR. The absence of an edge-protection layer provides no meaningful infrastructure mitigation; the transport layer uses a valid DV certificate issued by YR2, which confirms encryption but not legitimacy.

Closing Assessment

Sensitive interaction should remain suspended unless the business identity and external threat findings are independently resolved through trusted channels and formal security review.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of brasillista.com.br.

- The request stayed on brasillista.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2027-03-02. NOTED
- The earliest public archive of this site is from 2009-01-22. CLEAR
- It is hosted on AS53107, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about brasillista.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
