Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an informational presence for BRC Inc, a local recycling and materials-handling business serving the Auburn and Enumclaw, Washington area. It presents recycling, natural-materials handling, drop-box service, trucking, excavation and land-clearing, and mobile screening and grinding, with the apparent business model of arranging local services and collecting on-site service or material-handling fees.

Scam/Impersonation Risk

No contradictions were observed. The homepage describes a coherent local-business model, provides operating information and physical-location details, and presents no login form, investment solicitation, cryptocurrency feature, online payment flow, or credential-collection mechanism. Evaluated reputation checks found no malicious or suspicious detections, while the available historical record is consistent with a long-running, continuously represented domain. The website is therefore consistent with an established, apparently legitimate local business, although the real-world operator identity remains independently unverified. No suspicious contact-channel integrity anomaly was identified.

EVIDENCE

- The homepage identifies BRC Inc as a recycling facility and lists local services, hours, and an Auburn, Washington location.
- Behavioral inspection of the homepage found no login form, hidden form, external password form, wallet interaction, or external POST activity.
- Domain registration records show creation on 2010-03-25 and an age of 16.42 years; the registrar is TLDS LLC. d/b/a SRSPlus.
- Historical records contain 162 archive snapshots spanning 2011–2025, with 15 years tracked.

Regulatory Verification Notes

The site provides a business name, mailing address, telephone and fax numbers, operating locations, service descriptions, and a copyright notice. It does not present a license, registration number, or regulatory authority, so the applicable legal status of the recycling, excavation, trucking, and materials-handling activities is not established by the website itself. This is a disclosure gap requiring ordinary business verification, not evidence of impersonation or fraud. No matching third-party broker signal was identified, and the available external reputation results did not produce a malicious or blacklist finding.

EVIDENCE

- The homepage and contact information identify “BRC Inc,” provide a PO Box in Enumclaw, Washington, and list telephone and fax contact details.
- The published site content contains no stated license number, registration number, or named regulatory authority.
- The site is served from AS30170, OPTICFUSION - Isomedia, Inc., US.
- The transport certificate is DV-validated, issued by YR1, and valid to 2026-11-07T09:43:50+00:00.

What to Verify Next

An independent confirmation of BRC Inc’s legal operating identity and the physical yard should precede any material commercial engagement. Where the planned service involves regulated, safety-sensitive, or jurisdiction-specific activity, the applicable local or state licensing and permit status should be confirmed through the relevant public registry. Current pricing and service terms should also be confirmed through an independently validated business contact because the site states that published prices may become outdated.

EVIDENCE

- The homepage states that current prices are those held by cashiers at the yard and that website prices may not be current.
- The site provides both a physical facility address and a separate mailing address, enabling independent business-location confirmation.
- The site presents telephone and fax channels rather than an online transaction or account-registration workflow.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** for this website as an established local-business information service. Its content, observed behavior, domain continuity, and external reputation are consistent with an apparently legitimate site, while independent verification of the real-world operator remains incomplete.

Infrastructure Integrity

The hosting arrangement is a straightforward direct-hosting posture rather than a CDN- or WAF-mediated deployment. That configuration is not, by itself, a legitimacy indicator or a threat finding; infrastructure should be considered alongside the site’s content and behavioral evidence.

EVIDENCE

- Resolution identified one infrastructure IP, 209.147.116.200, in the United States.
- No CDN edge IPs or detected CDN/WAF vendors were reported.
- Infrastructure resolution status was successful.

Closing Assessment

Ordinary independent checks of business identity, applicable permits, current service terms, and payment protections should be completed before credential or payment interactions, particularly for higher-value engagements.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of brcrecyclers.com.

- The request stayed on brcrecyclers.com. It was not redirected to another domain. CLEAR
- Registration is published under TLDS LLC. d/b/a SRSPlus. CLEAR
- DNS for this domain is served by yourhosting.link, across 2 name servers. NOTED
- The registration is paid up to 2027-03-25. NOTED
- The earliest public archive of this site is from 2011-02-07. CLEAR

- It is hosted on OPTICFUSION, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about brcrecyclers.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
