

Is bridgebologna.it legit? TrustSniffer's high-trust assessment: 99/100

bridgebologna.it

Verdict

99

OUT OF 100

HIGH TRUST

bridgebologna.it appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official website for Associazione Sportiva Bridge Bologna: news, tournament schedules, membership information and a login area for members. Site built on Joomla (cassiopeia template).

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

bridgebologna.it is the website of Associazione Sportiva Bridge Bologna, a local bridge and sports association presenting club news, tournament schedules, membership information, educational activities, contact and location details, and a member login area; its apparent model is community membership supported by membership and event-participation fees.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence identifies no phishing, impersonation, conflicting legal-entity, or other malicious indicators. The homepage content is consistent with a local club, including tournament notices, bridge-school information, rankings, governing materials, and links to established bridge organizations. The presence of a username-and-password login is a normal member-service feature in this context, and observed behavior showed no hidden forms, wallet activity, external posting, suspicious scripts, cloaking, or credential redirection. The site therefore presents a low apparent scam or impersonation risk, while the real-world operator identity remains independently unverified. Evidence:

- The homepage identifies ASBB and presents club notices, tournament schedules, rankings, bridge-school content, and member services.

- The homepage login module requests a username or email and password, with no observed untrusted destination or hidden form.
- External reputation checks recorded no malicious or suspicious findings, and no broker-dataset match was identified.
- The domain was registered on 2001-04-23 and is approximately 25.34 years old.

Regulatory Verification Notes

The website appears to operate as a sports association rather than a financial or investment service. Its navigation includes “Statuto,” “Consiglio Direttivo,” “Contatti,” “Dove siamo,” and “La sede,” which are appropriate organizational and contact disclosures; however, the supplied evidence does not independently verify the real-world operator or establish any regulatory registration. No financial-services license claim or license number is presented in the reviewed content. This is a verification and disclosure point, not evidence of a scam, and no adverse third-party regulatory signal was identified. Evidence:

- The association pages include a Statuto section and a Consiglio Direttivo section.
- The homepage navigation includes contact, location, and venue information.
- The site is hosted on AS43989, EHIWEB - Ehinet Srl, IT.
- The site's TLS certificate is issued by YR2 at DV validation level and is valid to 2026-10-07.

What to Verify Next

Before credential or payment interactions, independently confirm that the association name, venue, membership arrangements, and current contact channels correspond to the intended local organization. The applicable membership and event terms should also be checked for fees, cancellation or refund treatment, and available payment protections. Evidence:

- The site provides dedicated contact, location, venue, membership, and event-information areas that can be reconciled with an independent source.
- The site includes a Cookie Policy and member-registration functionality, supporting a review of account and privacy terms before enrollment.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website operated for a local bridge association, with no observed scam or impersonation contradictions. The overall trust posture is high and low risk, but the operator's real-world identity is not independently verified.

Infrastructure Integrity

The site resolves to a single direct hosting endpoint on EHIWEB - Ehinet Srl, with no CDN or WAF detected. This is a straightforward hosting arrangement rather than an indication of malicious infrastructure; however, it provides fewer edge-layer protections than a site deployed behind a mainstream CDN or WAF.

Closing Assessment

Ordinary use is proportionate to the evidence, provided independent identity, membership terms, and payment-protection checks are completed before submitting credentials or making payments.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of bridgebologna.it.

- The request stayed on bridgebologna.it. It was not redirected to another domain. CLEAR
- Registration is published under Ehinet S.r.l.. CLEAR
- DNS for this domain is served by ehiweb.it. NOTED
- The registration is paid up to 2027-05-31. NOTED
- The earliest public archive of this site is from 2001-05-17. CLEAR
- It is hosted on EHIWEB, from a server in IT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about bridgebologna.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
