Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2002.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Budget Insurance is a South African insurance provider offering vehicle, home, building, business, life, warranty, claims, policy-management, and quotation services, with customer support, policy login, and physical-contact information presented for prospective and existing policyholders.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent insurance business model with specific cover types, quote functionality, claims support, and policy services, while the domain shows long-term continuity and clean external reputation signals. The site's established history and consistent insurance identity support a legitimate provenance assessment.

- The homepage presents car, home, building, motorcycle, business, life, warranty, claims, and policy-management services.
- The domain was registered in 2002 and has an age of 24.34 years.
- Historical records contain 584 snapshots spanning 2002–2026, covering 25 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site provides licensing information, policy information, customer-support channels, and a physical address, supporting a mature customer-facing insurance operation. The available evidence does not establish a verified license or registration number, so regulatory authorization remains a transparency item for independent confirmation rather than an indication of impersonation or fraud. Registration is recorded through DIAMATRIX C.C., with Telesure Group Services (Pty) Ltd listed as the organization.

- The homepage and associated service content identify Budget Insurance as an insurance and financial-services provider.
- The site presents licensing information, reviews, policy details, claims handling, and customer-contact information.
- The domain registrar is DIAMATRIX C.C.; the recorded organization is Telesure Group Services (Pty) Ltd.
- The site is hosted on AS13335, Cloudflare; its TLS certificate is issued by WE1 at DV validation level and is valid through 2026-10-18.

What to Verify Next

Before regulated onboarding or material policy commitments, the prospective customer should independently confirm the relevant insurer, intermediary, and licensing details through the applicable South African regulatory registry and validate the published customer-service channels using an independently sourced contact route.

- Licensing information is presented within the site’s legal and insurance-information content.
- Quote, claims, login, and policy-service workflows are available through the site’s customer-facing pages.

Summary Verdict

Budget Insurance is assessed as a legitimate, established, and trustworthy website with a high-confidence identity and no observed contradiction-based indicators. Normal interaction, including account login and standard policy-related use, is appropriate.

Infrastructure Integrity

Cloudflare provides the site’s CDN and WAF protection, and the observed addresses are CDN edge servers rather than the origin. This reduces direct origin exposure and is a mitigating infrastructure control, not independent proof of legitimacy.

- The site is served from edge IPs 104.18.21.49 and 104.18.20.49.
- Hosting infrastructure is identified as Cloudflare, Inc., United States, on AS13335.
- TLS is issued by WE1 using DV validation and expires on 2026-10-18.

Closing Assessment

Standard browsing, login, quotation, claims, and policy-management activity is appropriate; independent confirmation of regulatory details is advisable before material commitments.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of budgetinsurance.co.za.

- The request stayed on budgetinsurance.co.za. It was not redirected to another domain. CLEAR
- Registration is published under DIAMATRIX C.C.. CLEAR

- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-05. NOTED
- The earliest public archive of this site is from 2002-05-28. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about budgetinsurance.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
