Full analysis

Overview

This website is the Indus Valley online storefront, presenting organic beauty and personal-care products through a direct-to-consumer retail model with product discovery, promotions, cart functionality, and account access.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavior, and external reputation signals. The storefront presents a coherent consumer-commerce purpose, with no detected phishing, brand impersonation, malicious activity, suspicious scripts, hidden forms, or wallet-related behavior. Its established multi-year presence and clean external reputation support the conclusion that it is a legitimate retail website.

- Domain registered on 2021-09-15 and approximately 4.88 years old; registration extends to 2028-09-15.
- 121 archive snapshots spanning 2022-01-20 through 2026-05-19, covering 5 years.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist or phishing finding.
- The domain appears within the global top one million, at rank 140053.

Regulatory Verification Notes

The site presents the Indus Valley commercial identity and sells skincare, haircare, natural hair-colouring products including henna and indigo, hair-growth products, and related personal-care goods. The registration record identifies Indus cosmeceuticals Pvt Ltd and GoDaddy.com, LLC as registrar. No licensing claim or license number is presented in the analyzed storefront material; this is a limited transparency point for regulatory verification, not evidence of fraud or impersonation. A separate broker-reputation source produced no match.

- The storefront is an ecommerce product listing with prices, ratings, product variants, promotions, and direct purchasing functions.
- Domain registration is associated with Indus cosmeceuticals Pvt Ltd through GoDaddy.com, LLC.
- The site is served from AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- TLS is valid, issued by YE2 using DV validation, and expires on 2026-09-02.

What to Verify Next

For institutional procurement or material commercial exposure, confirm the applicable corporate and consumer-product registrations for Indus cosmeceuticals Pvt Ltd through authoritative registries, and review the site's

current terms, returns, privacy, delivery, and payment conditions before placing larger orders. Standard account login and purchasing workflows are appropriate for ordinary use.

- The homepage exposes product prices, ratings, variants, cart actions, and account access.
- No sensitive form or untrusted password destination was observed during page-behavior testing.
- The analyzed page completed 2 of 2 observed behavioral runs without external activity or wallet interaction.

Summary Verdict

The website is legitimate, established, and appropriate for normal consumer interaction. Its identity, commercial purpose, historical continuity, technical security, and external reputation converge without observed contradiction.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF, with the observed address 23.227.38.32 operating as CDN edge infrastructure under AS13335; no origin candidate was observed. This reduces direct exposure of the underlying server and is a mitigating infrastructure signal, though it is not independently proof of legitimacy.

Closing Assessment

Normal browsing, account login, and standard purchasing are appropriate, with ordinary commercial due diligence retained for unusually large or institutional transactions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about buyindusvalley.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
