## Full analysis

### Overview

BV Magazine is a Brazilian online furniture retailer offering wooden furniture, kitchen and home products, discounts, installment payments, delivery, order tracking, customer accounts, and related consumer policies through a direct-to-consumer storefront.

### Scam/Impersonation Risk

No contradictions, phishing indicators, or brand-impersonation signals were observed. The site's established domain history, clean external reputation, and consistent retail presentation support a legitimate business interpretation; normal account login and standard shopping interaction are appropriate.

- The homepage presents a coherent furniture catalogue, product pricing, shipping information, and customer-support functions.
- The domain was registered on 2012-03-14 and is approximately 14.39 years old.
- Historical coverage contains 265 archive snapshots across 14 tracked years, from 2012-05-28 to 2025-12-17.
- External checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

### Regulatory Verification Notes

The site presents a physical address, CNPJ, customer-support details, payment and return policies, and delivery conditions consistent with an established Brazilian ecommerce operation. No specific financial-service licensing claim is relevant to the stated furniture-retail model; any procurement or commercial due diligence should treat applicable registration and consumer-disclosure confirmation as a routine verification matter rather than an indication of misconduct.

- The homepage identifies the business through a CNPJ and physical address and provides commercial policies.
- The site is served from AS13335, Cloudflare, Inc.; its TLS certificate is issued by YE1 with DV validation and is valid through 2026-09-02.
- Product pages and the storefront describe installment payments, shipping timelines, order tracking, and returns.

What to Verify Next

For higher-value purchases, independently confirm the merchant identity, payment recipient, delivery terms, and return conditions before completing the transaction. Commercial buyers should also confirm any applicable registration requirements through the relevant Brazilian registry.

- The storefront provides dedicated account, checkout, shipping, and tracking functions.
- The published commercial policies provide a basis for confirming payment, delivery, and return obligations before purchase.

Summary Verdict

The website presents as a legitimate, established, and trustworthy consumer retailer with a coherent business model and no observed contradiction-based risk. Its overall posture supports normal interaction, including account access and standard transactions.

Infrastructure Integrity

Cloudflare CDN and WAF protection mediate the site through four observed edge addresses on AS13335, while the origin server was not exposed in the observed resolution. This is a mitigating infrastructure characteristic that reduces direct origin exposure but is not, by itself, proof of legitimacy.

Closing Assessment

Standard browsing, account use, and ordinary purchases are appropriate, with transaction-specific confirmation of order, payment, and delivery terms for material purchases.

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about bvmagazine.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
