

Is cabaia.fr legit? TrustSniffer's high-trust assessment: 75/100

cabaia.fr

Verdict

75

OUT OF 100

HIGH TRUST

cabaia.fr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Official ecommerce storefront for CABAIA selling backpacks, bags and accessories. Contains product listings, cart and checkout flows, account login/registration, company commitments and store locator information.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2014.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

CABAIA.fr is an ecommerce storefront presenting CABAIA backpacks, bags, luggage, and accessories through product listings, shopping-cart and checkout functions, account access, shipping and returns information, brand commitments, and store-locator content; its apparent business model is direct-to-consumer retail funded by product sales and in-site promotions.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, blacklist, or malicious-content indication. The homepage presents a coherent retail catalogue and ordinary account, newsletter, cart, and checkout functions, with no hidden forms, untrusted form destinations, wallet-connect activity, or detected brand-impersonation pattern. A small number of abuse reports were associated with a shared content-delivery IP operated by Shopify, but the address was whitelisted, attributed to shared infrastructure, and carried zero abuse-confidence; this is therefore a soft infrastructure-reputation signal rather than evidence directed at the website. The domain also has sustained historical continuity, a strong traffic footprint, and clean external reputation checks, supporting an apparently established site while not independently proving the real-world operator's identity. Evidence:

- Homepage: CABAIA product catalogue, cart, account registration/login, newsletter, and checkout functions were present; no page red flags were identified.
- Historical web record: 360 snapshots spanning 2014-03-23 to 2026-07-13, covering 13 years, with a maximum gap of 1 year.
- Shared delivery infrastructure: 9 abuse reports were associated with 23.227.38.32, attributed to Shopify, Inc. as a Content Delivery Network, with confidence score 0 and whitelisted status.

Regulatory Verification Notes

The site appears consistent with an established consumer-goods retailer rather than a financial or otherwise regulated service. Its content presents brand commitments, shipping and returns information, and store-locator functionality, but the available evidence does not independently verify the legal entity operating the storefront. No regulated license or registration number is presented in the supplied site analysis; for this business model, that is a transparency and merchant-verification point rather than evidence of a scam. The domain's long registration continuity, reputable registrar, valid transport encryption, and established hosting arrangement materially support the legitimacy assessment. Evidence:

- Domain registration record: registered 2013-10-24; age 12.81 years; registrar GANDI; expiry 2027-10-24.
- Hosting telemetry: served from AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- Transport security: TLS certificate issued by YE2, validation level DV, valid to 2026-10-25.
- Site content: homepage and retail-information content identify the CABAIA brand, product range, shipping and returns, commitments, and store-locator functions; no license claim or license number was recorded.

What to Verify Next

Before credential or payment interactions, an independent merchant-identity check should connect the storefront to the legal seller named in applicable purchase, returns, and privacy documentation. The checkout should be reviewed for the seller-of-record, refund process, delivery terms, applicable jurisdiction, and payment-protection options. Contact details should be confirmed through an independently sourced CABAIA channel, and any claimed corporate or certification information should be checked against the relevant official register or issuing body. Evidence:

- Account and checkout flows: login, registration, cart, and checkout forms were detected on the storefront.
- Retail information: shipping and returns content is available for review before purchase.
- Brand-information content: company commitments and store-locator information provide starting points for independent merchant-identity checks.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. The assessment supports normal retail use, but the real-world operator identity remains independently unverified; legitimacy should therefore be treated as evidence-consistent rather than proven.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed addressing consistent with an edge-delivery configuration rather than direct origin exposure. This provides a meaningful mitigation against routine network exposure, but protective infrastructure is not, by itself, proof of merchant identity or legitimacy.

Closing Assessment

Ordinary browsing and retail consideration are proportionate to the assessment; before submitting credentials or payment details, the prospective customer should complete the independent merchant, returns, and payment-protection checks described above.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 9 reports on hosting IP 23.227.38.32 (Shopify, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cabaia.fr.

- The request stayed on cabaia.fr. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GANDI. [CLEAR](#)
- DNS for this domain is served by gandi.net, across 3 name servers. [NOTED](#)
- The registration is paid up to 2027-10-24. [CLEAR](#)
- The earliest public archive of this site is from 2014-03-23. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in CA. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cabaia.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
