

Is cafe-schoenborn.de legit? TrustSniffer's high-trust assessment: 100/100

cafe-schoenborn.de

Verdict

100
OUT OF 100
HIGH TRUST

cafe-schoenborn.de appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not ScamLow Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official website for Café Schönborn in Würzburg. Provides address, phone, opening hours, menu links, reservation instructions, voucher info and an email for job applications. No forms requesting sensitive data or payment on the site snapshot.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What cafe-schoenborn.de served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Café Schönborn is the website of a local café, bar, and restaurant in Würzburg, presenting its venue, food and beverage offering, opening information, reservations, vouchers, contact details, and social-media presence for customers and prospective visitors.

Scam/Impersonation Risk

No scam, phishing, impersonation, blacklist, or identity-contradiction signals were observed. The homepage and related reservation and contact pages describe a conventional hospitality business rather than a high-risk online financial or investment service; the captured site contains no login or sensitive-data form, no wallet connection, and no apparent credential-harvesting mechanism. Available external reputation checks also returned no malicious or suspicious findings, although reputation coverage was not complete. The site's apparent identity is therefore consistent with an established local business, while the real-world operator remains not independently verified.

EVIDENCE

- Domain registration continuity: registered in 2012 and approximately 14.17 years old.
- Web-archive history: 127 snapshots spanning 2012–2026, covering 15 years.
- Homepage and contact/reservation pages: no sensitive forms, hidden forms, wallet activity, or brand-impersonation indicators were observed.

Regulatory Verification Notes

The site links to an Impressum, contact, reservation, and menu structure appropriate to a local restaurant. The available material does not independently establish the legal operator or a regulated-business status, and no regulated licence is claimed; for this apparent café business, that is a verification matter rather than evidence of deception. The available third-party context contains no adverse broker-reputation match. The site's content is substantial and business-specific, although the absence of structured metadata is a minor presentation weakness rather than a trust contradiction.

EVIDENCE

- The website's transport encryption uses a DV certificate issued by Starfield Secure Certificate Authority - G2, valid to 2027-01-22 12:34:48 UTC.
- Homepage navigation includes an Impressum, Kontakt, Reservierung, and Speisekarte page.
- External reputation checks recorded no malicious detections, no suspicious detections, and no blacklist or phishing flags in the available coverage.

What to Verify Next

Before credential or payment interactions, an interested party should independently confirm the legal operator named in the Impressum through an appropriate German business registry or an offline venue contact. Voucher terms, cancellation conditions, and any payment destination should be checked through the site's own published pages and a separately confirmed contact channel; higher-value transactions should use payment methods offering normal consumer protection.

EVIDENCE

- The Impressum page is available through the site's primary navigation for operator and legal-disclosure review.
- The reservation and voucher information are presented as dedicated customer-service functions rather than as sensitive-data collection forms.
- The site links to established social platforms, providing an additional channel for confirming the venue's current contact and operating information.

Summary Verdict

The overall posture is **high trust and low risk**, with evidence consistent with an established, apparently legitimate local-business website. The classification is strong, but it should not be treated as independent proof of the real-world operator's identity.

Infrastructure Integrity

The site resolves to hosting operated by GODADDY-SXB - Host Europe GmbH in Germany, with no CDN or WAF detected and two likely origin addresses. This is a conventional, directly hosted infrastructure posture; the hosting arrangement does not itself indicate malicious activity, while the absence of an edge-protection layer means it should be regarded as a mitigating technical context rather than proof of legitimacy.

EVIDENCE

- Hosted on AS21499 (GODADDY-SXB - Host Europe GmbH, DE).
- Infrastructure resolution identified 2 unique IP addresses, with 0 edge IPs and 2 likely origin IPs.

Closing Assessment

Normal informational use is proportionate to the available evidence; before submitting credentials or making a payment, ordinary independent checks of merchant identity, applicable terms, and payment protection should still be completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cafe-schoenborn.de.

- The request stayed on cafe-schoenborn.de. It was not redirected to another domain. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 2012-06-16. CLEAR
- It is hosted on GODADDY-SXB, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cafe-schoenborn.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
