

Is canadianvp.com safe? TrustSniffer's moderate-trust assessment: 69/100

canadianvp.com

Verdict

canadianvp.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Commercial website for 'Canadian Visa Professionals' (CVP Global Services Limited) advertising immigration consultancy services for Canada including eligibility evaluations, application assistance, and prep products for language exams. Contains descriptions of visa programs, company registration number and London address, and standard site policies.

Evidence status and limitations

Evidence completeness: **UNKNOWN**

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Governance Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Canadian Visa Professionals is a commercial immigration consultancy website operated under the presented name CVP Global Services Limited, offering Canadian immigration eligibility evaluations, application assistance, visa-program guidance, and language or examination-preparation products to prospective applicants seeking permanent residence.

Scam/Impersonation Risk

No contradictions were observed across the available site and external signals. The homepage and About page present a coherent immigration-consultancy model, identify the service brand and company name, and do not exhibit detected phishing, impersonation, malicious-content, or abuse patterns. The domain is long-established and the available reputation checks did not record blacklist or malicious detections; coverage was not universal, so this supports but does not independently prove the operator's identity.

EVIDENCE

- The homepage and About page describe Canadian immigration consultancy services and contain no detected phishing or brand-impersonation indicators.
- Available external reputation checks recorded no malicious detections, no blacklist hit, and zero abuse reports for the observed infrastructure.
- Domain registration telemetry: registered 2017-03-06 (~9.46 years old) through GoDaddy.com, LLC.

Regulatory Verification Notes

The About page presents CVP Global Services Limited, a company registration number, and a London address, and states that the business works with authorized Canadian immigration consultants. Those statements provide useful on-page identity and operating-context information, but the authorization of the collaborating consultants is not independently verified in the supplied evidence. The site's legal and policy material is described as standard, while its licensing or regulatory-disclosure position remains unclear; this is a verification gap rather than evidence of a scam. The service model involves paid eligibility assessments, application support, and examination-preparation products, making confirmation of contractual scope, fees, and refund arrangements material before payment.

EVIDENCE

- The About page names CVP Global Services Limited and states that it collaborates with authorized Canadian immigration consultants.
- The About and Contact material presents a company registration number and London address.
- Hard transport telemetry identifies AS13335 (Cloudflare, Inc.) as the serving network; the TLS certificate was issued by WE1 with DV validation and is valid to 2026-10-03T19:29:41+00:00.

What to Verify Next

The claimed consultant authorization should be confirmed directly through the relevant Canadian regulatory registry, using the individual consultant's full name and authorization details rather than relying solely on the website's description. The presented company registration number and London address should be checked against an independent corporate register, and any engagement should be supported by a written agreement specifying the responsible consultant, deliverables, total fees, payment recipient, cancellation terms, and refund policy. Payment should use a method offering appropriate dispute or chargeback protection.

EVIDENCE

- The About page makes the authorization claim that requires confirmation through an independent regulatory source.
- The Contact and policy pages provide the business and service information to reconcile against independent corporate and contractual records.
- The site presents application and paid-assistance services, creating a clear need to confirm the precise payer, contracting entity, and refund terms before funds are transferred.

Summary Verdict

The website supports a **moderate-trust** posture: its content is coherent, its apparent business purpose is conventional, and no scam or impersonation contradiction was observed. The available evidence is consistent with an established, apparently legitimate service website, but the real-world operator and professional authorization claims are not independently verified.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, which provides a mitigating layer against direct exposure and common network abuse. Infrastructure records also associate hosting with EDP - Mechashvim E.D.P. LTD on AS56596 and identify potential origin candidates; these details describe the technical hosting arrangement and should not be treated as proof of business legitimacy.

Closing Assessment

Routine informational browsing is reasonable, while independent identity, authorization, contractual, and payment-protection checks should be completed before high-value or sensitive engagement.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of canadianvp.com.

- The request stayed on canadianvp.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-06. NOTED
- The earliest public archive of this site is from 2013-07-16. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about canadianvp.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
